GRIND/NOISE

Sadist/Above the light(CD)

This CD begins with the long classic music and then you'll hear middle toned voices singing. I think they're playing something like old styled death metal like old death, old death courier, Sadistic noise etc..... Personally I can't like these progressive sounds consisting of Piano, Keyboards etc..and vocals bothers me ..Some peoples may not like their music but also some people would love... Nocturnus uses Keyboards but I like them coz of not boring.. If you wanted Sadist records, see the prices, and send your money!!! Record quality (Cover etc.) is excellent.

This EP also has been released by Regurgitated semen rec.!!! On side Blow job, there's 21 grind/noise studio sonx!!! And on the another side Drunk and stoned, there's fuckin' cool 4 live sonx!!! I liked live side much more!!! Robert's low growlings sounds especially great on the live!!! Cool stuff!!! Well I've heard this EP is already sold out....??

Cadaverous Condition/In melancholy(CD)

Well I've reviewed their 1st demo '91 on my 2nd issue so I really curioused how their 1st CD sounds like.. They are not playing noise on this CD any more. But their music sounds more decent than before coz of good quality. The member, Wolfgang call their music, "Some kinds of Avantgarde independent death rock". To me this sounds like death metal which doesn't bother my ears. I could enjoy their music enough coz not boring death metal. If you had interests on this CD, Contact to Lethal rec. I don't think Wolfgang sell by himself anymore.

Necrony/Pathological Performances(CD)

This CD has been released by German label, Poserslaughter records!!! This label is always good taste in my opinion!!! You can listen to 12 grind/death sonx. And all new sonx. There's no same sonx with their demo "Severe malignant..", But music style is still same. Also Dan Swano from Edge of Sanity is doing backing vocals.. Sound quality is great. Vocal style is my fave kind, distorted low voices. Just try to listen to this Swedish death grind!!! This CD prices are; US\$18(World)/US\$16(Europe)/22DM(Germany)!!!

Here's an interview with Stefan of a grind core band with politics attitude !!!But anyway fuckin'sorry!!!This interview is getting quite old now!!! So maybe things on the band have changed...

<1>When did you start your zine and band???

-I start the band D.I. in April '91. We had many line up changes but now the current line-up is;Stefan-throat, Pat-screams,Ollie-drums & Peter on bass(maybe Marco of Social Genocide bass too!!)!!2 bassguitars rule!!! I also play at Social Genocide,but drums.(We haven't recorded anything.) The zine was started by Pat & Kai in' Sept'92.But Kai doesn't work for the zine anymore.Firstly at the 4th issue, Olaf of W.B.I. helps us with the zine!

<2>Do you sell your zine mainly in your country or foreign countries??

-Pat sells the zines in Germany and me in Austria & Switzerland.I don't know if Pat sells the zines also in other countries,too.But I think so!! In Austria there's a great interest in underground zines!!

<3>Are there any new Grind/Noise bands in Austria???

-In Austria I think there's a some bands in the vein of Grind but they're all unknown.Austrian Noise scene is dead.There wasn't any scene here since Austria existed!Fuck this boring country!!!

<4>These Austrian death bands like P.stench,D.orchestra,D.murmur are still popular in Austria???

-Yes they're popular.They've many fans here.Also in the west here,but you can not buy any records of them in a record shop.You can't buy any core stuff here in Vorarlberg coz they are all so ___,they don't know bands like Heresy, Siege etc...The only stuff you can buy is Metal!!I hate P.stench & D.orchestra.(I used to like them but no more-ED) They move capitalistic,money sucking, rip-off,commercial bastards!!!!!!!!!!!!

<5>What's your fave bands??

-My fave bands are very many,to much to mention.But here are some;G-ANX (Gods!),Herb Mullin,Siege,Doom(also Gods!),Disrupt,7M.O.N.,Warhead(cool HC from Japan),Agathocles,Assuck,Crude SS Sore throat,Hellnation,Sarcasm and a lot of other Scandinavian,UK and of course Japan core.Not to forget the cool Industrial bands!!(Hi Herb-how are you!)

<6>Tell about your latest zine!!

-The 3rd issue is more in the vein of HC and political attitude and not to be only a music zine.There're some cool cartoons,story's about fascist-problem,reviews,a vegetarian-edge(We hope that will be more in the 4th issue) Anywhere in the zine there's a cool statement from Micha(Hi Micha) "On the way into the 21th century come s you the misery of the 3rd world towards.Please drive extremely right and don't think about!!!"

<7>How much does your zine & demo cost??

-The zine is available for US\$2-(excl .postage-world).The split demo with Pasztorozott is so good as sold out, but I have some copies here(I think 7 pieces) It costs US\$5-(inc.postage-whole world too!) But I think it's better that you don't buy the demo coz in oct.our split EP on Psychomania will be released.It will be the sonx of the split demo,but in our new remix!

<8>What's the best Austrian zine except yours??

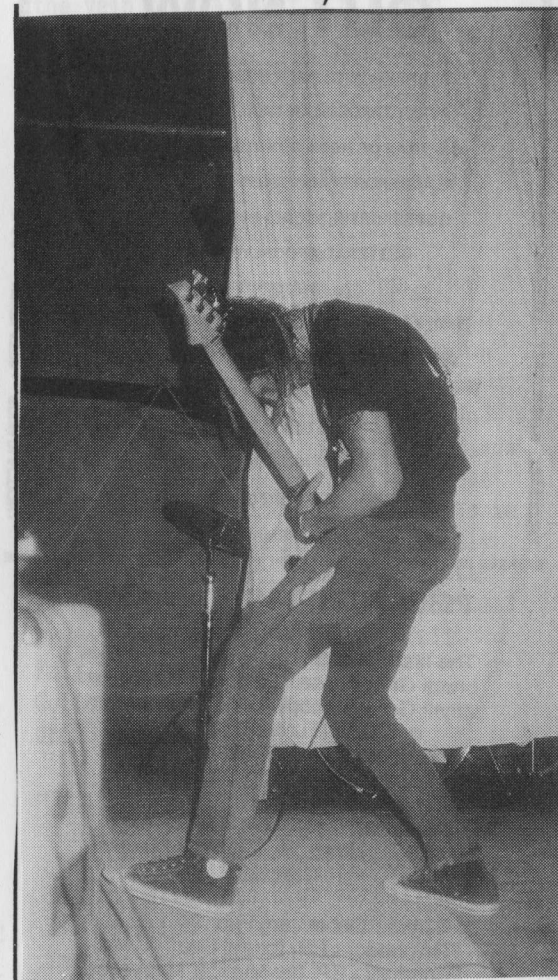

-I don't know any other Austrian zine who's like Pat & my zine is!Austria is still boring.Only death metal guys which don't accept the core freaks. They are stupid like nazis!!

<9>Anything to add??

-Yes thanx to you Rumi for the interest in my band & our zine.Much appreciated. I wanna say hello to;Ollie,Jan,Peter, Jay,Sauil,Sami,Altse and all who write to me..Please feel free to write. Destroy racism & capitalism.stay strong and keep your own attitude!!!

Here's an interview with Javier of Jangle,noise band in the Anal cunt vein formed in the March'93 by only himself...On his 1st demo,he was doing every parts-Drum machine,Guitar,Vo.,but on their latest split demo with E.Alive,I saw there's 3 members's name!!So I think now they're 3 piece!!! Actually They've improved more than their old demo!!!Well support this band!

<1>What's your fave bands&influences?

-I can mention My Dying Bride,Cannibal corpse,Tumor,7MON,Meat shits,Paradise lost,The gerogerigege,A.C. & many others from Brutal death to Noise.

<2>Why did you start to make noise?

-It began coz I was shouting in a grind noise band called Panczeas,but this project got putrid,decomposed, and disolued so I started making noise with the help of a friend!!!

<3>I resently see lots of grind/noise from Spain...So popular in Spain??

-Yes,it's true Everyday more & more bands into Grind/noise are appearing in Spain.Some of them are excellent bands and others much better.There's some good bands like;Germen,Excreted alive,G.masticator,Wardrohe,Stomach noises,Cazuela,S.D.H.,V.headache.,,

<4>Do you live in Island?Is this good to live in Island to you??

-Yes I live in Canary Islands.here I live very good.We have a good time during all the year and the mail is so expensive.So I have no motives for complaining.

<5>Can you buy any kinds of porno videos in your country???

-Yes I think.But it don't interest me very much.They're great films and very interesting but I don't need to see them with much frecuency,so I don't disturb me in searching or buying.

<6>What's your opinion on death metal Black metal,Doom metal,Hardcore???

-They're other kinds of music.Anybody can like them so much as noise.I shout in a Doom death band and in Jangle too.Anyway I dislike Hardcore.

<7>What do you do in your spare time?

-I answer my delayed mail.To do the vegetable.I play handball too.I make noise and doomdeath.I hear Noise and lots of things like sticking,working.

<8>What's your future plans??

Dysentery/Brings me no tears(CD)

Oh!!Is this that German extreme gore-splatter,Dysentery??Really??Sounds totally different so!!If you've ever listened their Pathological waste EP from Poserslaughter rec,you can't expect the same sound!!On this CD, there's nothing which reminds me of Dysentery.I'm a bit dissapointed with their change coz I used to like their unnatural distorted low growls + gore-splatter grind sounds!!Now their vocals sounds like the vocalist of Dr.shrinker singing and music sounds like some kinds of techno-deathmetal reminding me of Nocturnus,Devastation(IL)..But when you didn't remind old sounds of them,you can enjoy their CD a lot coz musically they're not bad.. If they've changed their name and I didn't notice that they were EX-Dysentery,probably I said"Great techno-death"!!!Well this CD contains 11sonx !!If you wanted,send US\$18(World)!!!

Rot is a classic blasting grindcore band from Brazil!!! I have all demos/EPs by Rot..and all releases sounds like the same!!Ha,ha!!But this is why I like this band!!!I like bands who don't change their music style!!!!!! But...of course I can see them improving musically every release!!!!!! Well in the 3rd issue I've featured Rot interview taken by my zine friend, Altemar!!!And in this time I've done an interview with Marcelo,one of the nice non-rip off mail guys,by myself!!!So read on!!!!!!

<1>When was the band formed???

-Rot started back in October'90 with me(Vo) and Mendigo(Gu),we have changed our line up a few times,but now we feel we're stablized with Marcelo(Ba) and Claudineli(Ds/Vo) and of course me and Mendigo!!!

<2>Let me know all records you've ever released???

-Demo"Prisoner of my fear"(2/91),7"EP "Almighty god"(9/91),7"EP"Drowned in restrictions"(11/92) and right now a full CD called "Cruel face of life" released on MORBID RECORDS from Germany and a Rot/Mindfart split 7"EP released on GRINDING MADNESS REC(For get it send 6\$ to Boezie-BROUWERIJSTRAAT 1 B-3290 DIEST BELGIUM),this guy is also vocalist of a brutal grindcore band called INTESTINAL DISEASE,try to check it also!!!!

<3>How many copies did Morbid records press your CD??

-Firstly were pressed 1000 copies + 300 promo CDs(Without booklet,etc..), but as it isn't limited I think MORBID REC. will re-press it soon!!!

<4>Anyway I was surprised when I listened your 1st CD coz your sound was almost the same with your old 1st demo,2nd demo.You won't change your music style in the future too?????

-Ha,ha!We like our style very much, really there's no any plan to change it cause we're playing the stuff we love and not for trend!We'll improve it for sure!!!

<5>Why do you think there's lots of girls playing in the death/grind/noise bands?????

-I really dunno why,but it seems cool that girls are being more and more active in the scene playing in bands, making zines,distributing stuff etc.. Here in Brasil there're also girls playing Grind-Noise-HC and for sure death metal,I'll just mention some ones!Angela(NECROSE bassplayer)(Hi-ya -ED),Marly(NO SENSE vocalist),Sheila (POLUICAO SONORA bassist) and there's also a great only girls Grindcore-noise band called PURULENCE,if you have the chance,try to check these bands and don't be a sexist pig!(That 's OK!!!!!!-ED)

<7>How old are you,Marcelo????I just curioused coz you used to keep in being the mail scene for years....

-Now I'm 23 years old,I've completed them in 26th Feb'94(Gifts still welcome,ha,ha!!!),the other guys are also 22-23 years old,except for our bassist Marcelo who is only 20 years old,and what about you?How old are you,Rumi? (Yeah!!I wrote down in the last letter !!!-ED)

<8>What's your future plans???

-Soon we'll be again in the studio, this time to record for 3 new split 7"EPs,SCARRHOUS/ROT-7",PSYCHO/ROT-7" and AG./ROT-7"EP,also there will be a ROT/TRUCIDATOR split tape,we are also working in 2 other bands now, Mendigo and Claudinei are in LATRINA together of Babu(our 1st bassist) and soon me and Claudinei will start to work in another band,more in the crust /HC vein like EXCREMENT OF WAR/DOOM/ HIATUS!The other guys in this band will be Emerson(who also played in ROT for a little time) and maybe Babu!

<6>What's your opinion about death metal,black metal,hard core??To me death metal-trend posers,black metal-Nazi pigs,hardcore-Pussy!!!Grunge wanna be!!!)

-Well I don't think hardcore is grunge shit,(No,soon after some years,they will be playing punkrock shit!!-ED) I love lots and lots of hardcore bands like OLHO SECO,C.F.D.L.,DOOM,ANTI-CIM EX,TERVEET KADET,RATTUS,FEAR OF WAR, CRUDE SS,BASTARDS,MOB 47,HIATUS, DISRUPT,LATRINA,LARM,MINOR THREAT, ATACK EPILEPTICO,CAPITALIST ALIENATION ,SHITLICKERS,ROVSVETT,and tons more! Don't you like these bands?(I used to listen to only HIATUS..but I've heard they've changed their Vo.style to high tone from growling low..it was sad thing.-ED)For sure there're not grunge there!As for black and death metal your words already have said all!

<9>Anything to add??

-Firstly 1000 x thanx for doing a new interview with ROT, keep doing this excellent sine, for anybody interested in contact us, please don't hesitate!! To get our CD, write to MORBID REC. Industrial holocaust/Noise split 7"EP
This is a Brazilian total noise split 7"EP!!!

On I. Holocaust side you can listen to speed short noise sonx with low growl vocals in the E.B. vein. I like these typical noise a lot!!!

On Noise side, You can also listen to good noise in the W.B.I. vein with twin vocals!!! In

their influences names, I saw that great Polish grind name, Nuctemeron, so they're very good taste on their grind /noise!!! Their lyrix also deal with Nazism, Religion, Society etc. Both cover jackets are also good taste. Well if this EP is still available, please ask for Mauricio!!! This is only for Noise maniax!!!!!!

 sounds like more extreme than their

 7MON's song short more!!!There's
 7705 sonx in this tape!!!Totally for

Here's hot interview with Olli, the deep growler of GUT formed in '91!!! I've done interview with Olli again!! So enjoy this new interview!!!!!!

<1>Hello, Olli have you released any new material since your 1st 7"???
-Hello, Rumi! No since our release of the "Spermany's most wanted" 7" EP, we didn't release anything new. But here are our (hopefully) upcoming releases:
-7" EP on Necroharmonic productions
-7" EP on M.M.I. rec.
-split 7" with Brain damage on Regurgitated semen rec.
-split 7" with Nyctophobic on Regurgitated semen rec.
-split 7" with Morphea on ? (Sorry I don't know the name of this label, I just know that it's a sub-label of Morbid rec.)
-split 7" with Gore beyond necropsy on M.M.I. rec.
-CD on Regurgitated semen rec.

The trax for the both 7" EPs are already recorded in June '92! and I hope that we'll record the trax for the split 7" EPs soon! I think we'll need a while till we can record the CD coz we need much more sonx!

<2>Resently have you changed your music tastes???

-Not really, I just listen to much more noise now! Well, I listen to many kinds of music and some of my faves at the moment are; Bjork, Gore beyond necropsy, Traci Lords loves noise, Regurgitate, Onyx, Cypress hill, MC ren, Vomit spawn, Funkdoobiest, Sterbehilfe, Depeche mode just to name a few.

<3>How do you describe the current music style you band play??

-Well that's hard to say, I think it's no deathmetal coz I hate 90% of all deathmetal bands and we are just to extreme for a deathmetal band. I also don't think that we're a grindcore band coz most of our sonx are mid-paced and not fast enough for a grindcore band. Of course we have elements of deathmetal, grindcore+also noisecore in our sonx. I would describe our style as mega-fucked up gore/porn-core!

Thanx Olli for your answers!! Did you like these porn girls I've put on GUT pages, huh??? Keep your deep growling voices!! Bye-bye!!!

(From L to R)
Olli/Joe/Tim!!!

<4>Why do you like to use lots of effects on your voices?? Who is your fave vocalists???

-Believe me or not, I don't use so much effects! Our drummer (he also sings) has used some effects, but also not so much. We are just able to have such extreme deep voices (Really? Great!! -ED) and it's really not difficult to learn it. But I think we'll always put some harmonizer/pitchshifter parts in our sonx to make it more extreme! I don't really have a fave vocalist, maybe Bjork but she's of course no influence for me!

<5>Have you listened the current Cathedral's Lee Dorian's vocals?? He totally suxx!! The most poser!! (He now does high tone rock vocals like Motley Crue etc.. and dances like rock stars!!!)

-I'm no fan of Cathedral so I'm not interested in their music+Lee's vocals! (Fuck them!! Unfortunately I couldn't avoid to see his poser face coz suddenly he appeared on the TV. Suxxxx!!!! -ED) But our drummer loves it!

<6>Do you have lots of porno videos?Are you still into that blonde queen,Savannah??

-I don't have so much porno movies but I watch lots of them!Oh shit, Savannah is great!!What a gorgeous bitch!But I'm also into porno chicks like Traci Lords,Sandra Scream(She's one of beautiful porn actresses with bigger tits!!!I like too!-ED),Raquel Darrian,Tori wells(Yeah!!She is also beautiful!!-ED),Madison,etc.(Hmm,you're totally into US Porn stars!!But Your tastes are good so!!-ED)

<7>Which kinds of porn videos that you can't deal with??

-I really don't like pornos that deal with animals + children.(Yeahh Children porn is totally sick!!-ED)

<8>Did you eat your girl's pussy?Did you like that,huh??

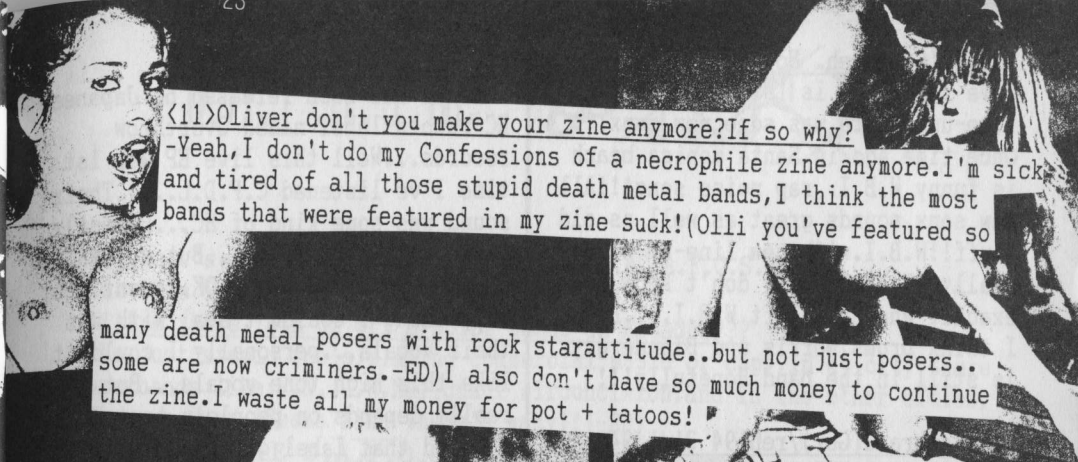

-I didn't have the pleasure to eat the pussy of my actual girlfriend, I haven't seen her for 2 weeks now and we didn't have so much sex till now.But I'm sure her pussy tastes good!

<9>Your girl is good at giving you blow jobs??

-I haven't got any blow jobs since Dec'92(long time,huh?) and my actual girlfriend haven't given me a blow job til now,but soon she will have my dick in her fuckin'mouth!(I guess so!!-ED)

<10>What's kind of sex you want to try with her??

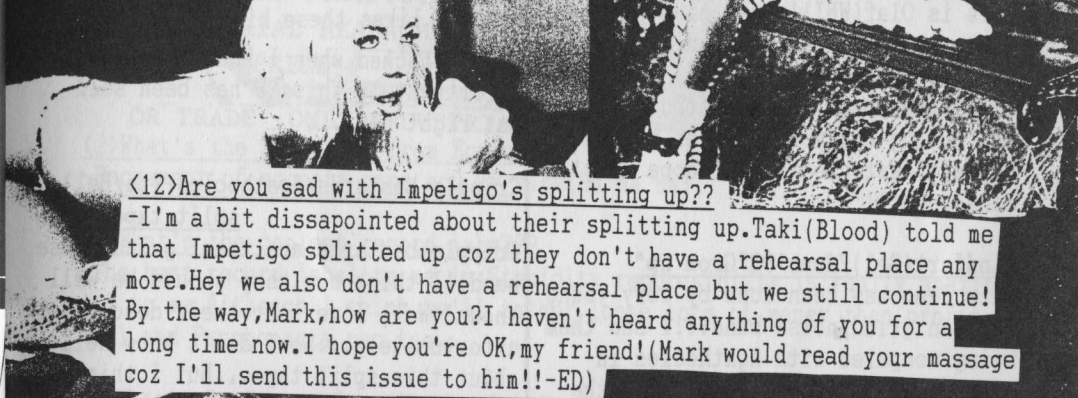

-All kinds that are possible,he he!

<11>Oliver don't you make your zine anymore?If so why?

-Yeah,I don't do my Confessions of a necrophile zine anymore.I'm sick and tired of all those stupid death metal bands,I think the most bands that were featured in my zine suck!(Olli you've featured so

many death metal posers with rock starattitude..but not just posers.. some are now criminers.-ED)I also don't have so much money to continue the zine.I waste all my money for pot + tatoos!

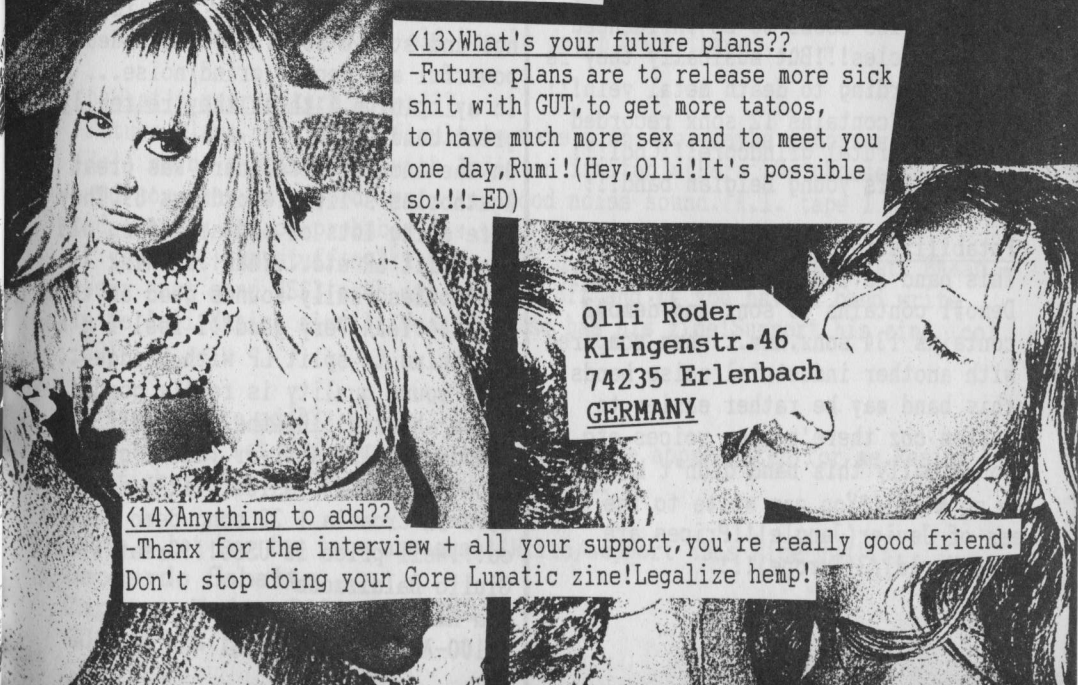

<12>Are you sad with Impetigo's splitting up??

-I'm a bit dissapointed about their splitting up.Taki(Blood) told me that Impetigo splitted up coz they don't have a rehearsal place any more.Hey we also don't have a rehearsal place but we still continue! By the way,Mark,how are you?I haven't heard anything of you for a long time now.I hope you're OK,my friend!(Mark would read your massage coz I'll send this issue to him!!-ED)

<13>What's your future plans??

-Future plans are to release more sick shit with GUT,to get more tatoos, to have much more sex and to meet you one day,Rumi!(Hey,Olli!It's possible so!!!-ED)

W.B.I.(Ger)/reh. Nov'93

I've read this is 1st reh.with new line-up..there was some new sonx!!! Once time ago in Santa monica beach is funny W.B.I. rap noise song!!!All new sonx sounds great as well as old stuff!!W.B.I.with new line-up sounds really OK although I don't know that exactly who have left W.B.I....But I think Drums,Norris and Blonde guy is still in the band Hopefully!!!

Flachenbrand(Ger)/reh'94 31/1/94

This is Olaf(WBI)'s new band!!Line-up is great!!!Olaf-Vo,Florian(Necrophiliacs)-Ds,Onno(Necrophiliacs)-Gu,Stoffel(Tumor/Yacopsae)-Gu,Kevle(Rodel rec)-Ba!!!Doing heavier & faster grind/noise!!!Just great!!!!I hope they'll make demo!!!

Mindfart(Bel)/demo'93"Grow up"

This demo has been done by very young Belgian grind/noise band!!!I see them being compared with Agathocles in some zines!!!I especially think the vocal styles seems to be influenced by Agathocles!!!But musically they're more towardsing to death metal vein!!! This demo contains 12 sonx recorded (live)!!!Brutal grindcore!!!Cool!!! Support this young Belgian band!!!

Potabilizadra(Spa)/demo#1 & #2

This band is industrial noise band!! Demo#1 contains 60 sonx and demo#2 contains 134 sonx.Hmm...when compared with another industrial noise bands, this band may be rather easier to listen coz there's even voices etc... so actually this band didn't bother me so much!!!You can write to the address of Javier(Jangle)!!Prices are US\$4(World)/3(Europe)!!!

C.F.D.L./live bootleg EP

This EP has been released by Japanese HC record label named Overthrow records...Well this live EP was 1st time I've listened C.F.D.L....Their sound was some kind of HC...Honestly I don't like HC music...But musically C.F.D.L.'s sounds were OK,decent!!But only thing I couldn't deal with was their vocals...personally I couldn't like this high tone vocals...But this really depends on people's taste coz I heard that label guy,Mr.Morishita rather likes these high-tone vocals I was shocked when I knew this...Well unfortunately this EP has been sold out right now....

Cripple bastards/Agathocles(Ita/Bel)/
split tape

Cripple bastards are total grind/noise band!!I think now they should be well known!!Well I've lost their demo cover unfortunately...So I don't know well about this split tape...But I think on C.B.side,there's both live recordings and studio sonx...Both sounded powerful and decent grind/noise... In my opinion,I think they're really great band....

On the another side,there was great Agathocles's live recordings'89.They were doing lots of old sonx from old EPs,split LP etc...Yeah!!I think Agathocles really sounds good on their lives!!!Yeah!Very good!!I feel I'm now listening to split LP with Drudge... Also sound quality is really good!! I was shocked!!!By the way now I founded Giulio's flyer..and I could know what's C.B.'sside...It was live in Croatia + 22 song demo recorded!!!Well price is US\$5!!!Great stuff! Giulio Baldizzone

Meat shits/Anal massaker/split 7"EP

This split has been released by Toni's label, Schnauf records!!!!!!
On M.S. side, 2 of 13 sonx have been taken from live!!! Again live sound is powerful&heavy deep growlings!!!
Also on the studio sonx, there filled with porn grind sonx!! Great!!
On A.M. side there's 12 grind/noise sonx!!! They brings you great grind/noise like usual on this EP too!!!
Also cover rules!!! On M.S. cover, there is quite realistic pussy shaving art drawn!!! On A.M. cover, there's Toni is appearing!!! This split is limited edition of 500 copies. So I guess this already has been sold out!!!

Dreaded instinct/Pasztorozott

(Aus/Ger)/split demo

D.I. is playing 22 sonx of grindcore towards to HC!!! Also there's covers of Deceived(ENT) and the famous song, World under my fingernail(Fear of god)!!! These covers were well done!!!
Pasztorozott is a total funny grind/noise band!!! This demo was one of the funniest demos I've ever listened!!!
There's 84 sonx dilled on their side! These guys are fuckin' crazy!!! Their sonx have made me laugh a lot! Especially last sonx!!! Trying to sing while they're doing-----(?) But musically they're decent!!! I liked this band!!!
This demo has been released by Pat..

N.P.H./D.A.F.O.S.M.(Ecuador)/split demo

N.P.H. is doing quite noisy music sounding like the between early 7MON and usual grind/noise... 326 trax are included on their side!!!
D.A.F.O.S.M. is one-man-industrial noise band consisting of only Leo???
As for industrial noise, I especially can't deal with the bands using high-tone. My ears resently can't deal with these industrial noises.. I don't know

why..but maybe you could like... This is totally noisy!!! If you couldn't deal with industrial too, I'll recommend you N.P.H.!!! I think this split costs US\$ 3... Both bands are Leo's!! Support!!

This band is an one-man total industrial noise band!!! Their industrial noise is similar to G-Horsturz!!!! I mean not high-tone!! Their noise is totally in the low tone... so I can deal a little bit more than high tone industrials... But this demo is enough hard to listen to the all day.. Only for extreme industrial noise fans!!
Anyway his demo cover is quite nasty!

Selfish/7"EP

I expected E.N.T. sound on this EP!!! But they are not Finnish E.N.T. anymore!!! I'm dissapointed with this EP!!! Sound is still in the HC vein or more than before!!! Especially vocal style has changed a lot to the sucking way!!! No more sounds like E.N.T. voices!! High toned vocals quite bothered my ears. I couldn't deal with this... Also I noticed Otto of Anal cunt vein noise bands, Kohina & P. noise is doing drums for Selfish on this EP. This EP has been released by Belgian label.. but now sold out. So I won't put the adress here....

MINDFART

Here you got Belgian pure grind band formed in April'92, MINDFART!!!!!!
They've ever released their 1st demo "Grow up" containing 12 grind sonx!!
On this demo, you'll listen to great grind sonx in the Agathocles vein plus some death metal influences!!! Anyway all members of this band are very young!!! Well I've done an interview with quite young (Only 16!?), pretty guitar boy, Bert!!! So read on this interview!!!

Sweetie, Bert!!

<1>What's your current fave bands?

-I'm quite open minded in my music, I listen to mostly to bands like; Gorefest Agathocles, Rot, Meat shits, Agnostic front, Impaled nazarene, Eucharist, I. disease, Necrobiosis, Bowelcrust, R.nation E.O.C., Hiatus, Systemaphobia,...

<2>You're quite young, when did you start to listen to Grind/Death/Noise??

-In November I'll be 17, I've started listening to Grind when I was 13 years old, it all began with bands like A. grinder, AG., Systemphobia, .. it was actually only Grind I've listened to and some HC bands. The past year I started listening to more and more death metal bands, but I still listen a lot to Grind core and some HC.

<3>How many copies of your demo have you sold until now? Do you still sell your demo? If so how much cost??

-We've sold around 200 copies of it, I think, it's now out for a year, it's not so much, but I don't care about that, we all don't like the demo anymore, so. We don't sell our demo anymore, but if some one really wants to have it I'll record it for him+some live recordings, but if someone is interested in Mindfart they can buy or trade our split 7"EP with Rot, it's available for 4\$. (Almost will be postage.. I can't believe how you can deal with this cheap price..-ED)

<4>From one song "Nintendildo", Is Nintendo popular in Belgium?? It's surprising!!

-Nintendo and Sega are very popular in Belgium with the children, there're Kids who play more than 8-9 hours a day on their Nintendo. These kids look mostly terrible and the computer games can also cause a disease names "Epilepsy". Therefore we've played a song called Nintendildo, but at the moment we've stopped playing that song+much others from the demo coz we don't like it anymore.

<5>What's toys you like to play with? You guys still enjoy to play with trains? (coz of lyric!!)

-I don't play anymore with toys, what I love the most is being with my girlfriend, that rule!!

<6>How is Belgian life like? Have a lots of funs??

-Belgian life is good, I have lots of funs, there're almost every week party's in my area, where I almost each time go to, it's great. During the week I'm always at school, that's quite boring. I don't know how life is in Japan, but there's everything great in Belgium.

<7>You look quite pretty, at the gigs, do you have lots of girls who want to fuck with you??

-Yes of course, each gig I fuck 3 girls no I'm only joking, most of the people come to gigs for the music, and I'm happy with 1 girlfriend, I don't need any others.

<8>You don't like to be compared with Agathocles??

-Agathocles is very well known in the whole underground scene, they're great, I like them very much, they rule. But our demo was very Agathocles influence so people compared us with Agathocles, but now we play a much more original kind of style.

<9>Any future plans, merchandise??

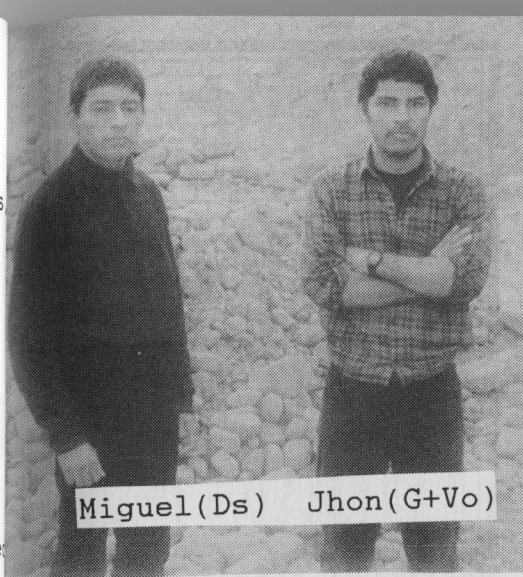

-We did last week our 1st gig out Belgium, it was in Germany. We hope to do more gigs outside the country. Yes, we're hoping to bring out a new demo, end this year. 1000x better than the 1st. Our 7"EP with Rot is available for 4\$ at my adress and there're 4 shirts left at the moment, they are available for 13\$.

<10>Any last comment?

Audition irritable/Seven minutes of nausea (Peru/Aust)/split demo '92

A.I. from Peru is playing quite extreme noise made by Guitar+Growls+Drums! I think they're in the vein of early 7 M.O.N.... on A.I. side there's 205 songs packed. Not industrial noise, so I could deal with their songs.. only bad point is that sound quality was bad... If you're interested, maybe you can write the band...

As for 7.M.O.N. side, Do you think I should say something on them?? They're

known as the same as Anal cunt... So sure everybody have listened 7MON!!! well known great 2 piece noise band with political lyrics!!!

This 3 piece plays total funny grind/noise which is similar to Anal cunt (Music+Screamings)!!! Actually I liked this band's noise +attitudes!!! Their demo cover looks like that they've cut from US's famous joke news papers??? This made me laugh!!! Well this band is definitely for all Anal cunt noise lovers!!! Get your copy for only US\$3 (World)/US\$2(US)!!! Also this guy, Dan has H Records too!!! OK, write!!!

This 185 songs demo sounds great!!! Musically they're similar to Anal cunt!!! Vocal style is high screaming type!!! S.A. was called before The Cunt decide until 'July'92!!! Also I think the vocal, Mr. Isobe has been in Buzz cunt before... Well this tape must be for all Anal cunt maniax!!! Mr. Isobe is really nice guy, so Write him!!! This demo costs US\$5 (World)!!!

PURULENCE

(Left to right)
Lurds, Alessandra, Cassia!!

PURULENCE is an all girls pure grind band from Brazil!!!!!! Can you believe that? All 4 members are girls!!!!!!!!!!!! I love to see all-girls grind/noise bands. But unfortunately, there's not so much in the world. I only memory an all girls grind/noise band called Psychopharmaka from Germany..but I've heard they've splitted up??? Anyway, back to the story of PURULENCE, I've listened their cool reh'tape..And I liked their sound anyway. Their vocalist is very naturall..I mean their vocalist is not trying to make her voices sound more

low by using lots of effects like anot her girl vocalists in Grind/Noise/Death bands..I usually don't like high toned vocals like Dr.shrinker..But I liked her natural attitude!! Well, I've chosen Cassia to do an interview with me!!!! You'll see Cassia is very pretty!! Well read an interview with this pretty & nice drummer, Cassia!!!!!!

Purulence

<1>When was the band formed??

-The Purulence band was formed nearly March 1992.

<2>Why did you decide to do the grind/noise band???

-We make grind/noise coz we like very much that style and we also try to say something more in the lyrics. Something really conscious!! I think we have to do things we enjoy. Then we made a sound that we liked a lot without the need of a specific label. But you can label the band as grind/noise, just for specify the style of the band.

<3>How old are you girls??

-Well our ages are; I'm (Cassia) the grandmother of the band, 20 nearly 21; Alessandra, 20; Simone, 17; Lurd's, 16 (the baby of the band). (Yeah, baby!! She's too young so!!! -ED)

<4>What's your favorite bands and influences???

-Our favorite bands are No sense, Carcass, Rot, Extreme smoke, Hinfamy, Bones erosion, Smegma (GODS), Blood, Plutocracy, OLD, Sore throat, Fear of god, 7MON, Impetigo, Necrose, Hellhouse, Obituary, Molestia, Leucopenia, etc... We'll not mention the influences, coz there're a lot.

<5>Mainly who does mail for Purulence??

-All kind of people mail letters to Purulence, people that like black metal, grind, splatter, hardcore, noise, also people like Straight edge's, punks, insanes, drunks. "animals", etc. There were sometimes that a Nazy satanist (!?!?) wrote to me. (Oh, Cassia!! I wanted to know who

in Purulence does the most of mail coz there was 4 members addresses in your bio. Maybe you do the most of mail? -ED)

<6>What's your opinion on Deathmetal/Blackmetal/Hardcore??

-About Blackmetal we respect the ones that like it, but I don't like it so much as grind or HC, coz who plays or only enjoys Blackmetal sometimes becomes idiot and fanatic for the "Fathers", as Blackmetal is known here. Of course that I know really good black metal bands, but I don't like their style of life. (Just ignore these childish idiots

!!! They suxx!! -ED) About deathmetal, I like the style of music, but actually the bands who happen in the scene are so much repetitive, so boring!! Hardcore I love, it's really cool!!!

<7>Why do you think there's many girls who play in death/grind/noise bands in Brazil??

-I think that girls in Brazil (as Purulence) are playing grind/noise coz they like it, only coz of this!! They're so cool girls, fighting to reach to their places. In these days of so much preconcept, there's so many obstacles to get over, and I really know that girls will get it, coz they're really fighting girls!!

<8>Doesn't your vocalist, Alessandra use voice change (effects) to make the sound more low??

-No, Alessandra uses no pedals, nothing to make her voice lower. The vociferations sounds very naturally (Have you liked them?) (Yeah! That was OK -ED)

<9>Are there many males waiting to have sex with you girls after your shows/gigs?? (Just joke!!)

-About this, we want distance from male chauvinist (just great ignoble), and we want to make only friends that have a minimum of respect for us, people that consider us as humans!! We come up in the stage to make sound and mainly show ideology, not only external aspects as face and visual. If a male thinks only about this after he's seen our show, he's just wasting his time, coz we don't want anyone of these fools near of us; if we wanted making sex we would not need to have a band and we'd go working in pornographic films.

<10>What are you doing in your free time??

-What we do in the free time? When there are some lazy time, we sleep, drink, heard sound and talk nonsenses. About Alessandra and Simone, I don't know what they do coz they don't reside in the same city that me and Lurds are. About Lurds her favorite entertainment is sleep!!

<11>What's your future plans??

-Our future plans are, at the moment, record a demo-tape, get better conditions for rehearsals and make many shows everywhere.

<12>Anything to add??

-Thanx about the chance of appearance in your zine and for the ones who had patience to read such a boring interview!! Now, no more kiddings, I say for the ones that are reading that interview; try to do something to make your life better, fight and always be great people with conscious attitudes. Union is also very important!! It's not enough to have a band and play everywhere else, you need to show your ideals, your purposes, That's it!! Grind core is the part of

our lives and our minds!! It's important for us. Think about this!!

Thanx a lot Cassia for your answers!!! I'm looking forward to receive your demo!! Write this nice girl!!!

Bowel crust/Pathology/split 7"EP(Holl)

First off as for Bowel crust, This band features 2 members of Smegma (Steven & Boris). I've reviewed Smegma's demo on my 3rd issue so maybe you'll remember these grind splatter band.. But don't expect Smegma sounds on B. crust!!! On this split, You'll listen to some heavy gore sound instead of Terrorizer grind... Steven's vocal style is changing to death metal type to fit.. Also I was pissed off by loooooong inst. which you'll listen to the end of last song.....

As for Pathology side, I quite enjoyed their brutal death metal!!! Probably you can't believe that all vocals have been done by a girl named Rachel! If the label guy, Hans didn't tell me, probably I didn't notice!!! Actually I liked Rachel's vocals a lot!!! To me her vocals are as good as Sharon's of ex-Derkeater. I love low type!!!! Also musically they're also great as well! Not boring at all!!! You really must listen to this band!! Order soon!!!!!! Price?? Only US\$6 for the world wide!! Lowland Records

Entrails massacre/Acoustic grinder/ split 7"EP

E.M. now sounds like more death-gore metal when compared with their demo.. But sure sounds more heaview&brutal Voices are much in the gore vein...!! A.G. now sounds like much more influenced by E.N.T.!!! The mixture of grind/noise and HC!!! Not as brutal as Agathocles!!! But still OK!! Also I've heard this split is already sold out!! This split EP has been released by German cool label, Regurgitated semen rec.....!!!

Meat shits/Catatonic existence/split 7"EP

This split EP has high-quality!!!!!! Also this is limited edition of 400 on Gold wax/600 on Black!!! Sound quality is excellent also!!! Cover has vinyl coating paper!!! On M.S. side, you'll find 14 fuckin' heavier grind/noise sonx!!! Latest M.S. sounds are much heavier&brutal than before!!! Of course like usual there's porn intros in the between of sonx!!! Great quality!!! C.E. is towards to the industrial death vein!!! But really brutal as well!! Naturally low voices are good!! If you've bored of usual death metal try C.E.!!! Black vinyl costs US\$7(World)/\$6(Europe&S.America)/US\$4(N.America), Gold vinyl costs US\$8(World)/\$7(Europe&S.America)/\$5(N.America)!!! Don't miss this quality EP!!! Morbid Granny

ULTRA GRINDING BEARDS

Here's also brutal GRIND GODS formed in the end of '88, U.G.B.!!!!!! Well... should I put long intro/bio here again.?? I think I've done enough over time in the past.. So I won't put in this time. But only things which always doesn't change is the facts that they fuckin' rule and they're always my favorite!!! So here's the hottest interview with Guido & Olli!!!!!!

<1>First off after demo #3 "Fear", have you released any new tape or record?
-No, we didn't. Due to some problems (Guitar player left, my backline was stolen and partly destroyed...) we rehearsed the last time sometimes in May/June last year!! Actually we're checking out a new guitarist and if he wants to join the band we'll rehearse a lot to get some new tracks and right after this we have some plan to release an EP. So if all gets right we will be back some times about June/July/August this year!!!

<2>What do you guys listen to recently?
-Guido; Well, that's a good question. You know that we don't limit ourselves so our musical taste is very strange some times. Anyway here are my personal faves at the moment; Die Krupps, ZZ Top (Did you listen to their new album?? -ED), Siege, Impetigo, W.B.I., Agathocles, Incisive, Slayer, Klute, (old) Spermbirds, Jerry's kids, Brutal truth (Uhh-ED), Final conflict, some actual Techno projects!!!!)...
-Olli; Well my faves are, now as before, really different in stylistic regards. At the moment I'm absolutely into Mortification (the Godz at all!), Pungent stench, Fish, Dire Straits, Blood, Bryan Adams, Marillion, AC/DC, (old) Carcass, (old) M. Angel, Agathocles, Sinister, Aerosmith, W.B.I., Incantation, B. Sabbath, some Classic like Bach, Mozart, Vivaldi, many

other Blues+Rock'n'Roll bands, V.S.O.P., Chris Rea, and tons more... Well Rumi Marion has got holidays at the moment so she can't answer your questions but let me name a few bands I knew she likes; Bad Religion, The Bates No Fx, Lard, also some Metal/Death bands and also some other like Gothic, Wave..

<3>Grind/noise is still very popular in Germany??

-Well it's not very popular or let me say it's not that popular as it seems. Of course bands like Brutal Truth will get more attention and some people get interested in Grindcore but not that much. There's a good scene at the moment with lots of good bands but also some moneysuckers who make this kind of music just to get some money. (Brutal Truth are real dick!!! They suck so much!!! Not just music! They're sexist/racist asshole group with rock star attitude! Sad that they're too popular in Germany too.. Sadly in Japan that's the same way too.. -ED)

<4>Anal cunt used to be the most popular in Germany as the foreign band. Are they still popular in Germany although they became bigger signed band???

-I don't think that Anal Cunt were the most popular noise band in Germany..

myself don't like them very much. Maybe they're popular here but I don't give a fuck. A friend of mine bought their CD...not very surprising. Still the same noise they ever did. I think Earache just signed them to have also a very extreme and strange noisy band on their label so they can do some more promotion with them. But as I said..I don't give a fuck on this.

<5>What do you think of peoples doing record label???

-Hmm, what kind of labels do you mean, more bigger labels like Earache, Peaceville, Century media or the real underground labels like Schnauf rec...?(Sorry I forgot to mention..-ED) These people at the bigger labels are doing just their jobs and others do it just for fun to bring the music out they like. And these people with the small labels are doing a lot to keep the scene alive and also a bit more united.

<6>Is this true that half members (Supporters?) of neo nazi are girls, and they are learning cooking, sawing, etc at the nazi house...??

-Guido; well I live in a small village and the real big towns are far away from here so we have more or less no problems with nazism here but let me say that our whole band are against any kind of nazism, racism, sexism. We all have to fight against these shitheads. -Olli; No matter if these Brain Dead assholes are men or women. Fuck them!!

<7>Do you guys have something to say on stupid black metal peoples??

-Well let's take a look bands like Impaled nazarene or Deicide. This bands have a very "Evil" outfit and lyrics, And

...?I mean are these bands dangerous in anyway. I for myself like their music (I liked I. nazarene's side noise band Anus cunt!!-ED) and rest..I can laugh about it. On the other side there are assholes from Norway (No names here, maybe they kill me sometimes, haha).

These guys are dangerous and we have to boycott them. Don't write them, don't go to their concerts and don't buy the records or demos or whatever they offer. I think this is good way to say NO!! (You're fuckin' right, Guido!-ED)

↳ Taken by Abso. ^{Thanx}

<8>To Marion How did you join in UGB?

-As I said Marion is in holidays now but let me try to answer this question! Marion works in the same factory as Olli so they get in touch and talked about some music. And hey..Marion listen to sometimes real extreme music so Marion told Olli that she wants to play bass in a real extreme band. So this is the story how Marion joined.

<9>What's your future plans??? Do you still have T-shirts for sale???

-Next plans are to get a new guitar player. After we reached this we'll rehearse a lot to get some new tracks. While doing this I will show Marion how to play our old songs. If we have some new tracks we'll enter a studio to record some tracks for a 7" EP. If the EP is out we maybe also print some stickers or let print some T-shirts. Let's see what happens.

<10>What do you guys do in your spare time???

-Well Marion has to learn a lot at the moment and of course she spends some time with her friend. Sometimes she works in a Rockdisco called "Musikpalast" so...that's it.

-Olli; There's just a few spare time left for I'm very busy at work, but when there's some time left I'm doing sports (mainly soccer), like to read something, watch some movies at cinema or on video or just have a party. Furthermore I'm spending most of my spare time with my girlfriend.

-Guido; Yah, well..I'm a total uninteresting person. I like to see some movies, mostly at home on video. (Me too. I don't go to cinema!-ED) Then I like to go to some Rockdiscos (What's that?!?-ED) near our village. Also I read a lot

books from H.P. Lovecraft or Clive Barker. And as I have no girlfriend at the moment I often go out to drink something. Interesting??? (Yeah!! enough!!-ED) But I also do a little compilation tape now (V.O.T.E.-Tapes Vol.1 out now) and write something for a great Japanese zine called Gore lunatic, haha!!! (Thanx a million for your killer scene report! Guido!!! This helped me a lot!!-ED)

<11>Anything to add???

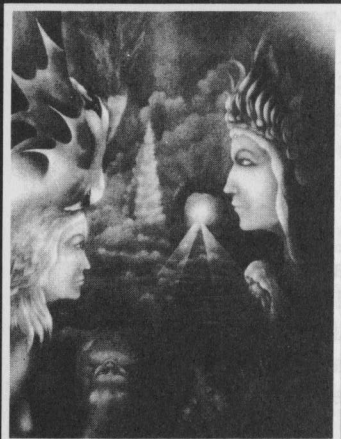

-Many thanx again Rumi for your interest in U.G.B.!! All people can write us. Please no stupid one line letters (Yeah!! fuckin' hate too! Too boring!!-ED) and of course no nazis. Also all people can write me for some more information on V.O.T.E.-Tapes. Vol.1, 2 and 3 are out now. Just write. Our addresses are;

SYSTEM
SHIT

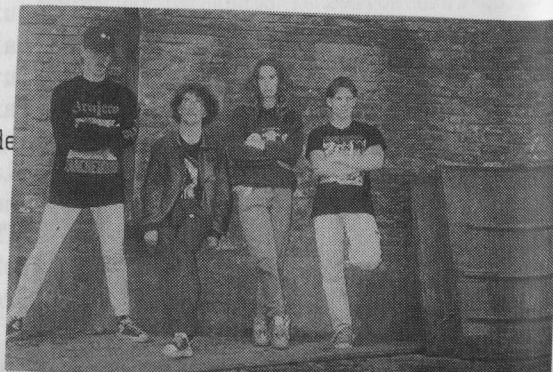

Well here's an interview with Noise Grinder of EX-A.B.L., now System shit! Until this interview, I didn't know that A.B.L. have splitted up...so interview's question is sometime strange..but this interview is not old..taken resentely!!! Also he now does a record label called After Dark Rec. So support this rec., too!!! Also System shit's studio demo '94 "Wind quest" is now available for US\$6 (World) and T-shirts (Whits or Grey) are for US\$15 (World)!!! I have white one, and can say good quality!!! L or XL!!! As for System shit's music, forget A.B.L.'s industrial noise sound!!! Also forget old System shit's grind noise sound too!! I have all demos by old S.shit coz I used to do tape trade with Noise grinder long time ago...to compare with old demos, new S.shit sounds quite different!! But sure musically they've improved a lot!!! As for this kind, explaining is a bit

A.B.L.

ULTRA
DEPRI

hard to me..I only felt that they've gotten strong originality!!! Well I'll borrow their words...They explain their music like the following; Melancholic, Psychedelic deathcore!!! Honestly I don't know how Psychedelic music sounds like coz I've never listened Psyche-music...But I think their words are right!!! Tape quality is really excellent and rather comes coloured cover & booklet!!! Containing 6 trax!!! Well try their strange death core!!!

<1>Are you still doing A.B.L.???

-No!!

<2>Are you still into grind/noise??

-yes, I like some bands like; Blood, Regurgitate, Fear of god, Necrotomy, Brujeria but I was not really a grind/noise maniac. I adore different style/types of music. I only like bands that I like and which are good enough for me. I also like bands as Fetish 69, Blasphemy, ENT, Prophecy of doom, Gore drome, fear factory, Impaled nazarene, Inquisitor, old Carcass, Disembowelment Ancient rites, IMC, Cadaverous condition etc, etc...

<3>Are you still into tape trading??

-Not much anymore. I don't have much time for it anymore. But I trade demos/EPs with bands against our stuff. So who's interested, just drop us a note! (I just curious how your list have increased!! That's all!! -ED)

<4>Which kind of music is the most popular in Belgium now??

-Pop music.

<5>Are there many new grind/noise bands in Belgium???

-Not much, the only band who means something in that genre is Agathocles. (Cool guys. But I don't like their ideas.) Other bands into that genre are all ass kissers. Only other band I think is cool is Mindfart. (Sure they are nice. -ED)

Here's

<6>Why do you hide your real name??

-I don't hide my real name. I have Noise Grinder as a nickname about 6-7 years now. My friends in the army gave it to me. So I decided to use it as my unofficial name. My real name is---

<7>Does your partner still do his zine??

-I suppose you mean Eric, (Yeah, he is! -ED) No, when we official started After Dark records he decided to stop it.

<8>Do you have something to say to my magazine's readers???

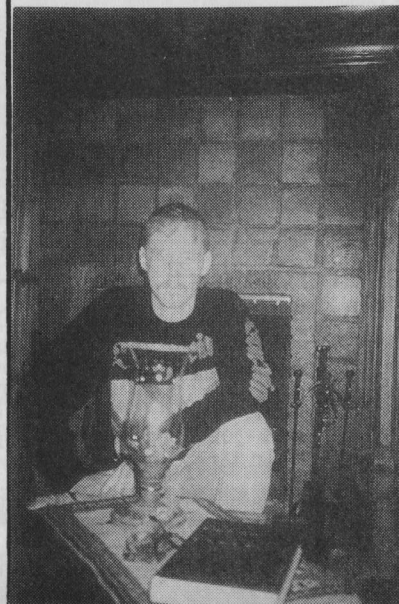

-People who are interested in us, buy our stuff or just drop us a note, we are always interested in trading!! (Only against high quality stuff) Also Also spread Rumi's name. Greetings!!!

Olaf and his gorgeous women, Silvie!!!
(What's up, Silvie?? Thanx for Cindy pictures!! See you!!)

W.B.I. formed in the end of '87 is well world-known funniest GRIND/NOISE band from Germany!!! They used to be compared with Anal cunt musically. I've reviewed them like that they reminds me the most of Anal cunt, on my 2nd issue, too. But when explaining W.B.I.'s noise, using the name of Anal cunt was the most easy way coz back then, A.C. used to be known the most in the noise underground scene!! But actually W.B.I. got the strong originality in their grind/noise style although they always keep in being the fastest & heaviest as hell!!! I have some grind/noise bands which I can distinguish by only listening without seeing demo covers, name etc... for example, the most one is Tumor, and M.shits, 7MON, of course W.B.I.!!! Also their newest 12" LP is a real killer as well as their old EPs!!! At the moment this 12" is being on my play list everyday!!! This totally rules!!!!!!!!!!!!!!!!!!!!!!!!!!!!

<1> Why, when did you move to Hamburg from Flensburg??

-It was Jan '92. The reason was the situation in Flensburg. OK, there're some cool guys-especially the Necrophiliacs guys, but at these days there was no gigs in Flensburg. It was total boring. In Hamburg I get more money for the same job than in Flensburg. I love Hamburg with the lots of pups-it's a cool city. I don't wanna live in another city. The most of my friends are living in Hamburg too. But Hamburg is only 150Km far away from Flensburg and so I got a constant contact with the Flensburg-guys.

40

NORRIS (dr) OLAF (voc) SCHNAUF (bg) SCHOLLER (voc) TARRI (guit)

<2> What's your current fave bands??

-OK, there're lots of bands. Some examples are; Anal cunt, Minch, Meat shits, Pink flamingos, Necrophiliacs, Drop dead, No comment, Hellnation, Spazz, Crossed out, Agathocles, Rupture, Cold world, old S.O.B., Disrupt, E.N.T. and so on... I can't say this or that band is my fave bands. There exist a lot of great bands.

<3> What's your opinions on; Skid row (Silvie's fave!!), Scorpions, AC/DC, Active minds???

-I'll start with Active minds. They're my favorite bands from England together with E. hippies, S.malfunctions, Heresy+Ripcord (All R.I.P.). I got all their vinyls. They're one of the honest bands I know.

-Skid row; I think there exist tons of better HM bands. Some of their videos are cool, but I don't like this band. Yes, my girlfriend love them and my rooms are filled with Skid row posters. (Oh, my god!! -ED) Sebastian Bach (Vo) looks more like a girl than a men. -No comment... (I've noticed on the same point too. Ha!! -ED)

-To be honest 1981 I was also a Scorpions fan. Their "Blackout" LP was really cool. But now... (Yeah! They used to be cool!! -ED)

-AC/DC; Sure, the famous HM band ever, but actually I don't listen to them anymore, I think they're cool coz they play their typical style since so much years ago they was a total poser band and right now acting like the hardest under the sun.. I must laugh!! (In my opinion, they always

41 rule!!! -ED)

NORRIS SCHOLLER OLAF SCHNAUF TARRI

<4>You've used some hard rock intros in your demo,EPs etc..Using rock intros was your idea??Personally I liked AC/DC"Highway-----"intro much. Would you continue to use rock intros in the future too???

-No,coz 1988 I wasn't in W.B.I.Our old guitarplayer Tarri(??Did he leave the band??-ED) had also played in a speed metal band and so he was also a fan of melodic parts.It was his idea to use the melodic intros.I think sometimes we'll be using melodic intros again,but after 5 years it's a little bit boring to start all trax with a pop/rock intro and thru it into noise.And so we'll do more trax without intros,but with more brutality-what a wonderful word.....Otherwise,if we'll find a cool track of course we'll play it as an intro for an other W.B.I. noisy track.

<5>As for your 12"LP"Arschbombe des monats".How many copies of limited edition??This LP is still available???

-The Arschbombe des Monats 12" was limited on 1100 and I get maybe 100 copies.If you're interested in it,write to me.The WBI/Cripple bastards split 7" is limited on 500 and before you'll send me money,please write to me and I'll reserve a copy for you.At May coming up the live split 7"

<6>Abo of C.C&B zine has sent me W.B.I. live picture before and I saw the member wearing W.B.I. red coloured uniform(Overall).Have you ever made W.B.I. overall uniform???

-No,no it was only a joke by our old growler Scholler(Oh,he has left the band!!-ED).We never made WBI overalls but the idea is pretty cool! (Hey,Olaf make ones!!!If you made I'll buy one!!!-ED)

<7>It's old story.But..why did you choose LA to travel??Why not NY??

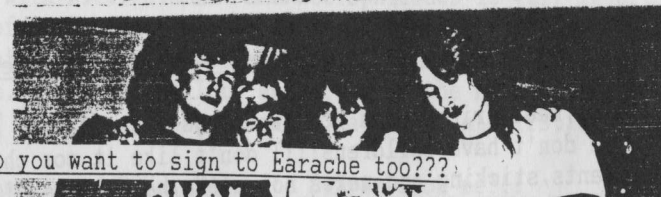

-Well it was my 1st travel to the USA and at first we wanted to see California.And it was wonderful.Sure,I think NY is also interesting,but we'll see later.Next year we wanna go back to the USA,to meet you and Robert(Meat shits).It was a really fantastic time there.We love the USA and California is really nice and warm.We've met a lot of friendly people like Dino of Fear factory,Malfunxions,Robert and of course Guy of C.existence.Also Micky mouse & godly 4 Donald duck from Disneyland was very friendly...ha,ha,ha!!!

<8>Did you buy Anal cunt's LP from Earache???

Do you still like the most Anal cunt???

-Sure coz I think A.C. is the best noisecore band so far.(Yeah,faster!!-ED)Listen to the Morbid forest MCD(Fuck!!!!!!I missed that MCD-ED)-the fuckin'best sound of a noisecore band.Also their"Everyone should be killed" is excellent,but the sound isn't so brutal like the Morbid forest.(I would avoide to buy "Everyone should be.."in Japanese edition coz title is being translated to Japanese languages..What a stupid!Looks so idiot!!So I'll find import CD!!!-ED)They rules-no question!Yes,after their sign under Earache they've received a lot of criticism.Everybody is thinking that they're money makers.But that's bullshit!Earache does nothing for them.From the 1st of July'94-22th of July we'll go on Europe tour with A.C.,Necrophiliacs and Patareni.I'm together with Davour of Patareni the tour-promotor and at 1st I was also thinking that they'll help us.But they've kicked A.C. & us in our ass.They will give A.C. the travel cost,but after the tour,A.C. must pay back the money.I think it is a very commercial label,which is only looking at the selling results and if a band didn't sell so much vinyls/CDs like Napalm death,they kick them in their ass.Look,why have the Carcass left the Earache?Right,they can make more money with Sony.Carcass told in their actually interviews, that Earache do nothing for them...That's the same with A.C..If the music is OK,I would buy it.Otherwise,I think that 98% of the noise/grind freaks got a Earache-release.Old Napalm death,Carcass,Filthy christians, Terrorizer,Sore throat,Repulsion...that's all Earache releases....!!

NORRIS SCHOLLER OLAF TARRI

<9>Do you want to sign to Earache too???

-Hmmm,I don't know coz I haven't seen a Earache contract before.if the contract was OK I think Yes,coz so more people can buy our stuff.And if I could live from the money of my music,why I should say"No",I wanna do

my sticking job..!But the negative thing is the sell-out of the band and yourself.Someday you will be only a product of the label and the money

makers are the label with their bosses.I can not give you an exactly answer.

Wismars Bärt Inferno

<10>Is Germany still the most danger country to travel for foreigners??
You know,becoz of nazis...

-No,no!Don't think that all Germans are fucking Nazi-assholes!Nobody will attack a traveller.The most actions are against the Asylunts,coz a lots of peoples have fear for the new cultures and the Nazi-bastards are using this fear for their own aims.For example Hamburg got so much Asyl ants like completly great Britain.And a lot of Germans are thinking that they're too much.Yes sure,but the real problem is the politic of Germany .But I think that's the same problem in the USA.I'm sure that every visitor can say a lot of good things about Germany.But this land is full of the problems.I can say to everybody-the most of Germans are friendly. The real assholes are the Nazi-bastards and I think actually they will fight back by the really cool Germans.Come to Germany and you will see it isn't so bad.Before I went to the USA,I've seen all the times the pictures of killed German tourists in the USA.(Oh,Olaf!I always used to and still see the lots of news on killed Japanese travellers in USA at the TV news,newspaper,magazines etc..But I didn't know that german trav

elles have been killed in the US,too!!!-ED)But as I was there,I've only met the coolest people.I think the Americans love the Germans and the Germans love the Americans.(I'm into American products a lot!!!As for videos,made in Germany stuff really rules!!!-ED)

<11>What are you doing with Silvie in your free time??What does Silvie think of W.B.I.???

-We go to parties,meet friends and do the things like all the other ones ...By the way we don't have childrens!!!I don't like it coz childrens shit in their pants,sticking and makes noise!!Ha,ha,ha!(Great!Children really suxxx!!!The biggest nuisance in the world!!I fuckin'hate,too!-ED) Silvie thinks,WBI is funny and she loves more the new trax than the old ones.She's seen the most of our gigs and after it she told me the reaction of the crowd.(You're good girl!!Silvie!!-ED)Sometimes she's thinking that I'm crazy but she loves it.

(W.B.I. have ever released the following)

- *reh-demo"BART 1"(180 sonx)
- *demo#2"ARABISCHER SACKMANTEL"'90
- *1st EP'90"STICHPIMPULIBOCKFORZELORUM"
- *Split EP with Necrophiliacs'91
- *Split EP with Cripple bastard'94??
- *12"LP"ARSCHBOMBE DES MONATS"'93

Live at Leipzig.11/4/92. Taken by Abo.

<12>What's your future releases???

-The tour with A.C.,Patareni and Necrophiliacs is very important for everyone of us.We want to release a mini-CD,a split 7" with Minch,a split 7" with Yacopsae and maybe we'll release a split 7" with Intestinal Disease.In May'94 we'll be appearing on the Patareni comp.CD and a Belgian LP Sampler against fascism.That's all at first...!

<13>Anything to add??Say hello to Silvie from me!!!

Hi there! My name is Guido from German grind band "Ultra grinding beards", I'm now writing for the great "Gore lunatic" zine. So if anyone's interested to be reviewed feel free to write me! Please only extremest in noise, grind or death! My adress is... GUIDO HAPPE

Sauerlandstrasse 106,

But now on to work. Rumi asked me to do a very special scene report about German grind/noise bands and so here it is. But Let me say that this is only the 1st part of the scene report! But now... on to the report!!

1st band we got is very well known in Germany and international underground scene! Anal massaker!! I'm sure lots of you guys know that huge grind/noise band. If not the band maybe a member of them.. Toni Mastropaolo. He also runs the little record label called SCHNAUF RECORDS who presented us for example The W.B.I. EPs and more. The musical style of Anal massaker can be described best as very raw. Extreme grind with lots of noisy blast speed parts! Their latest release I know is a split EP with another German grind/noise band from east Germany called Barcass. A little more about this later. To get in contact with A. massaker write to;

Toni Mastropaolo
Fischdiek 48
25524 ITZHOE GERMANY

On to another band from Germany's higher north, to the real cult band TUMOR!! Everybody sure know this great band and if not.. change it! I don't know exactly when the band started up makin' this sick noise (Well Guido, Tumor started in '87!!! -ED) But up to now they released 3 demos and 1 or 2 EPs. Latest release is the new EP called Flesh salad! released on Mental Derangement records (It's Andi's own label! -ED) You got 30 trax on this piece of vinyl.. Buy it or die!!!

Andi Mahl
P.O. BOX 770 174
28717 BREMEN GERMANY

Next band I want to review in this scene report is more a project than a band coz there's only one member in extreme hair stench!! Andy sent me a tape which features nearly 1 hour of industrial noise core or whatever you want to call this noise. Comparable to projects like Herbert mullin This tape features music without instruments. Recorded with "Things" you

can't describe and taped with full overdrive the feeling while listening to this tape is like sitting in a car with 200 miles per hour while an army tank crushes in your back.. BOOOOOOOOMMMMMM! Not everybody's taste but worth to check out for the hardest.

Andy

Slightly into the same direction we've got another so called industrial noise band now to be reviewed. A band with the strange name G-HORSTURZ. But these guys make the noise with real instruments... and of course some other... ahhh.. things! Founded by current members Joe and Martin in '91 they released 3 demos up to now! As said before musically they're a very extreme and raw chaotic industrial noise band. You can write to them at;

Martin Gebauer
Bernwardstrasse 22
31180 GIESEN GERMANY

OK! Next band is GUT! I really don't know anything from them except that they're a very good grind band. The tape they sent me features 3 trax + an intro and is the advance for the forthcoming EP called "Pussyfied"! Lyrically they talk about porno, sex & gore but music is one of the best, heaviest, pounding, raw, extreme grindcore. This band is extremely worth to check out!!

Olli Roder
Klingenstr. 46
74235 Erlenbach GERMANY

East German grind band Entrails massacre also have now some vinyl but this excellent slower grind band released their 1st EP as a split EP with Holland answer to E.N.T... Acoustic grinder!! Founded in '91 by Janek and Daniel they released their 1st official tape. After this up to now they played more than 15 shows with changing line ups. By the way the band offers great T-shirts So write or rot in hell!!

Also from east Germany is BARCASS!! This duo never released a demo tape but after the release of their 1st EP called "EXCEM" now they released their 2nd vinyl! This time as a split EP with A. massaker!! The music style is of course grind/noise core. Maybe a little mixture between A. massaker and W.B.I.!!! A little curiosity is that they sing in German but believe me.. you don't understand it!! (Great growls) Contact them at;

Sven Hofmann
Kaltenhausen 44 E
14797 LEHNIN GERMANY

I'm sure you all know one of the funniest and extreme fun noise band ever.. W.B.I.!!! These guys try to release their new mini LP now for more than 6 months. That advance tape I heard is absolutely brilliant. Hopefully they release this one cause there're some bad news! 2nd voice "Scholler" and guitar player "Tarri" left the band so nothing is clear up to now! To get some more info, write to the growling madman;

Olaf Korth
Habichtsweg 4
22307 Hamburg GERMANY

Well Drummer of W.B.I. "Norris" is also a vocalist of my personal fave band.. The necrophiliacs!!! They were founded in Oct/'90 by Florian (Ds) and Onno (Gu)! Same month they recorded the 1st demo "The lindewitt chainsaw massacre" a chaotic noisecore demo. In March '92 they put the 1st vinyl out and their style turned into noisy grindcore. By the way The EP was a split 7" with WBI! The latest output is again a split EP. This time with German grind band "Leucemie"! And this time again the music changed a very little into more or less pure grind! A rehearsal they sent me (with excellent quality) is one of the best stuff I ever heard from a German grindcore band! Ask for it at;

Florian Mahler
Muhlenkoppel 7
24969 Lindewitt GERMANY

By the way you can order the last EP for just 10DM or 6\$US at the above adress!! Buy it or bleed!!! (I missed to get this EP. So I must get!!! -ED)

What can you expect from a band named "Noiseslaughter"? Noise you think? But this time you're wrong! OK, they made some real noise in the beginning, but that was back in '88. After the release of 1st demo they bought some instruments (their own instruments). And they released a lot. In '89 the 2nd demo "Suicide of the mankind" was set to be released, also noisecore. In Sep '91 the 1st split EP with Tumor came out!! This time you can hear very good noisy grindcore but with a very high technical level!! Early '92 a split demo with German HC/Grind duo Yacopsae was released and a split demo with US Grind/HC band "Plutocracy" is planned! So if you want some noisy Hard/Grind core with a very high technical level write to;

Andreas Klima
Flinkenweg 1
56743 Mendig GERMANY

(Stefan-Ds. doesn't do mail anymore?? -ED)

On to another project. Klassik in qual is one of the extremest projects I ever heard. This time you'll get some real classic music like Mozart, Haydn, Bach... and of course mixed with some growls and noise! A very extreme and culty mixture! I'm sure you all know the initiator of this project.. and Abo Alsleben. He was the editor of German best grind/noise mag "Cadaver, corpse & Bowels"! Sadly that he stopped this zine! Well I don't know if the EP is still available but drop him a line and you will see. The other band Abo plays in is "Cadaver corpse"! A very cool grindcore band with lots of noise parts!!

They've an EP out recorded live at festival where they played together with bands such as Vaginal massaker, Agathocles (Godly gods of grind), A.grinder, W.B.I. and U.G.B.!!! Although you can hear on this live 7" a cover version of culty cult band ever... Fear of god! Just write him to get some more details. The adress is

Abo Alsleben
Altenburger.str.14
04275 LEIPZIG GERMANY

Another project band is B.S.B.!!! This stands for Barte session band or in English, Beards S.B.! This band features 6 members of W.B.I. and U.G.B.!!

3 members of each band are celebrating some funny chaotic noisecore with own speciality. They use sometimes 2 drums at the same time!! Even some grind influences can be heard. The recordings are now over a year old but that doesn't matter! To ask for more details write to the U.G.B. adress!!

To write about U.G.B. is not my part, Rumi wrote enough about my band in Gore Lunatic #2+3!! (No Guido you can review more your band by yourself!! -ED) We released up to now 3 demos! 1st was a real chaotic noisecore demo, the 2nd was a grindy noise tape and the last one was pure grindcore with some elements of noise, death and even rock and blues!! And again, write for more informations to my adress or to our drummer Olli!!

Oliver Tripke
Unterm Bangern 16
34431 Marsberg GERMANY

Now to a band which is not noise and not grind and even not death or what else. Yacopsae is a highspeed hardcore band but their sound is also listen able to the grind/noise freaks. And this duo is something very special coz these 2 guys are the band Tumor without singer, Andi!!! (???? Is this true??? I didn't know at all, Guido!!! I now checked out Tumor's demo #3.. but I didn't see Yacopsae guys's names!! I guess they've joined recently?? -ED) They got a split demo out with the guys from Noiseslaughter but I got a superb livetape where they also do an excellent cover versions of Impetigo's "Boneyard" and a funny version of "Boys don't cry" which is from gruffie band Cure I think. So a very cool tape for the little tolerant guys under you! Write to;

Stoffel Jenkel
Schaferstrift 1
21502 GEESTHACHT/ELBE GERMANY

Next outfit I want to review here is a band called "Scum in action" And What a brilliant grind they play. (Yeahhhhhh!!! Their 1st demo was killer!!! I loved it so much!! -ED) Very fast and celebrated with lots of energy. Of course the vocals are ultradeep growls (Yeahh -ED) and the man behind the drums... it seems that he want to kill them. Ultrafast doublebass and highspeed snare attacks!! Great!! The sound of the demo #2 they sent me is not the very best (This mean they became slow?? I've not listened yet.. -ED) but whole tape is highly recommendable!!! Buy this one or you're a stupid fool!!!

Karsten Seeber
Kantstr.31
99867 GOTH A GERMANY (EAST)

The name of the next band is "Ventilator"!! Founded in Summer '89 they 1st played real nothingcore!! A few month later their style turned into death/thrash and since oct '90 they now play some real chaotic noisecore which reminds me a little bit at the 1st Tumor demo or a band called Hasenfurz!!! Up to now they released the "Corrosive" EP (91), a split demo with Anal intruder and devil of noise called "Tod im leben" (93) And next release will be a split EP with D.S.F.A.!!! The tape I got features some excellent chaotic noisecore and the band also do a lot of coverversions!! For example they cover some sonx from Agathocles, Fear of god (Cult!!), Patareni and culty HC band Larm!! So for the hardest only write to some real noisers. Contact adress is;

Thomas Fischer

Auf der acht 8

66440 Blieskastel-Mimbach GERMANY

And again we have a band here to review which is not noise, grind, HC but... Death!!! Well the band is Insurmountable obstacle!! What a name! They play a very original style of deathmetal with some elements of grind as well. And let me say you that they're playing on a high technical level! They released up to now a demo called "Halo" (1/92), a 12 tr. live tape (3/92), the visionary love demo (9/92) and a tape called "Guess what" which seems to be a kind of best of tapes!!! The demo they sent me is one of the best deathmetal demos I ever heard, but there's one reason which makes the band listenable for grind freaks. The band has 2 singers! One with some kind of growls and the 2nd with a very strange voice. And.. believe me.. The drummer is fuckin' fast!! Just listen to "Still born" Great!!! All in all a highly recommendable tape for the death metal crowd (or for the little tolerant grinders)! Don't hesitate and order a copy at;

Michael Bayer

Kolpingstr.10

95508 Kulmain GERMANY

At the same adress you can also ask for some more details about a project band called "Sympobia"!!! This is also a one person project but made with real instruments. And of course real sonx! The music can be described best as very raw grindcore. And this time it's real grind. Not to fast but with noisy blast and speed parts. Of course the vocals are deep and growling. Partly it's a very musical sound, slow and.. well, judge for yourself. I like this stuff a lot and I hope you too. Write to the adress!!!

At least we have another German grind band to review! Sure you know a band called Vivisection was formed in July '91 when they also recorded the 1st rehearsals. Let me describe their music as a mixture between bands like the culty Fear of god and noise bands like Meat shits!! Also they partly use 2 vocalists, one with a high pitced voice and the other with some ultradeep growls (Whatelse??). A really great grind/noise band. But now some sad news... Vivisection has split up!! Vivisection is dead!.. long live Speedball!!!! This is the new band of the Vivisection members!! Their musical style changed from noisy grindcore into a sort of experimental one in the band coz he plays a real untypical instrument for a hard/grind band. He plays the violin! Yeah! A cool instrument isn't it??? I bet this band gets some more reviews than a normal grind band. Try it and write for more info!!!

Stefan Hanser

(As for the Vivisection... I resently listened their 3rd demo.. so they're now come back!!! And I know Guido, you know this right now too. -ED)

NOISE WASTE

<1>When was the band formed??

-In May '93 we had our 1st rehearsals and after that we made our 1st demo, which was recorded 6/6/93..from the beginning was sure that we'll use name "Noise waste" coz Janza had 1 HC band called Noise waste back in '85 and they didn't make anything so serious so we thought we could use that. Name also fits the "music"...

<2>What's your fave & influences??

-My personal favorites are for example ;Arse, Arseslaughter, Yesmeansyes, Naked city, Napalm death (grindcore stuff), Blood (demos, 1st LP+EPs), Man is the bastard, Bizarre uproar, Aunt Mary, The gerogerigege, Unholy, Bathory, old Cathedral, +tons more! I get new noise/music tapes very often so I listen lot of underground stuff..Rest of N.W. don't listen as much noise/grind as I do, mostly HC I could say, but also different kind of stuff. N.W. is also influenced by Terveet kadet and Pelle miljoona...

<3>Members are the same with demo#1?

-No Sidis left the band after we recorded our 2nd demo and now we've already got new bassist, so line-up is; Janza & Kettunen/vocals, MC/guitar, Mela/bass and Mikko/drums. When we recorded this new stuff Kettunen & Janza also played drums and I did the vocals too...

<4>You use twin vocals..were you inspired by E.N.T.? Do you still listen to E.N.T.??

-Yeah we have twin vocals, I don't know what have inspired it?? E.N.T. is one possibility, but there're also many other bands who have had twin vocals

before us, so maybe all those twin vocal bands have inspired us?? Twin vocals work in N.W. & it sound better.

<5>Finnish E.N.T., Selfish is still in active???

-They've changed their style into ANTI CIMEX style, and band is doing better than ever! They've made 7"EP which have sold already 4000 copies and also split LP with DOOM is out now, They have several coming; Selfish/Disclose 7", own 12", own official cassette, one side in 4 7"EP box+sonx to several compilations! They've made also tour in Europe in last Oct/Nov with other Finnish HC band UUTUUS! (I didn't know they became so bigger!! 4000 copies are unbelievable so!!! -ED)

<6>What's your opinions on; Deathmetal, Blackmetal, Punkrock, HC, Nazis???

-Deathmetal; I used to listen it before I was into grind/noise, then it was the hardest music I ever heard, but not any more. Nowadays I think that most of the deathmetal is boring! Most of lyrics are shit, singing about death/gore/satan is just as boring what something can be! Sometimes I still listen it for example from radio..Blackmetal; musically some of them are quite cool, but lyrics suxx! Some of the Norwegian BM bands/people are also neo-nazis, that is the worst thing. Black metallers in Norway have burned few churches and some of the wimps in Finland have tried it too... Religions are always shit, I don't mind if it's christian or satan worship or other kind, every religions are the same shit! Crush fascistic black metal,

NOISE WASTE

and let the other black metallers do what they want, coz everybody should have right to choose what they believe etc. unless they hurt people or something else..shit. Punkrock; blaah, I'm not into it, but if someone likes it, I don't care. HC; I like some of them, mostly the rawest ones..Nazis; Fuck'em! Noise waste played in one ANTIFA benefit gig 19/3/94, there was 12 other bands too. In some of the cities in Finland naziskinheads are already a problem. That disease got to stop!!

<7>Do you know any female grind/noise bands from Finland??

-No I don't. I think that here isn't any!

<8>You don't sell your demo#1 anymore? Please introduce your 3way tape??

-We actually never sold our 1st demo coz that was so short! But it was bonus on our 2nd demo. If someone still want our 1st+2nd demo, send \$3..I don't like those demos too much anymore. If every thing is going right these demos are also on one split which will be released by one cassette label from USA.. Noise waste/Varikset/Homofobia-3 WAY tape has C-20 cassette, labels, good covers and Noise waste plays noisecore and finally sound quality is good! Our stuff is also 1000x better than old stuff! Varikset is noisecore band from Finland too, good sound quality!! Homofobia is also from Finland and they play grindnoise! Sound quality isn't as good as it could be, but listenable any

way! This tape cost \$3 including airmail !! That should be so cheap that you could buy it. So do it, thanx!

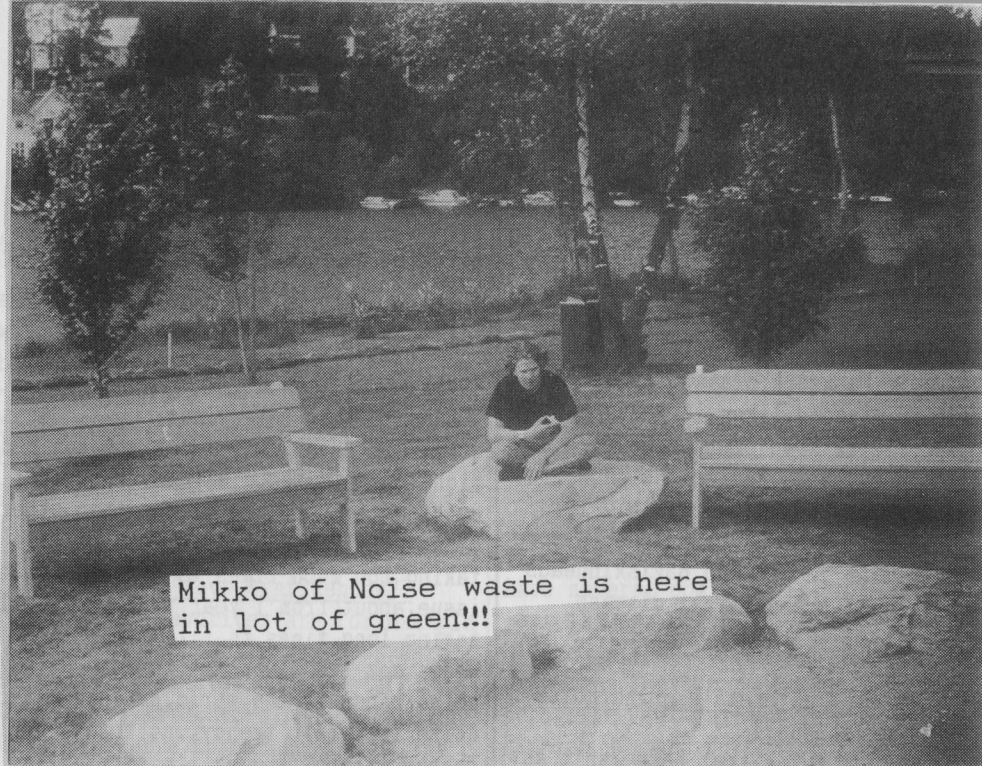

<9>Anything to add??

-Thanx to this interview! Your zine has quite big delay..why? (Well you noticed right point Mikko. I already know that my zine is much more slower than other zines..Why?? There's some reasons like taking too much times to get rid of one issue, about from 1 year to 2 years..Also taking long times to fill the blank pages coz there was not so many grind/noise bands in the world. But now grind/noise is fuckin'trendy..so things would change I think. Anyway I'm sorry Mikko I especially made the big delay to you?? -ED) Hah, that actually doesn't bother me so much. Keep doing this!

PSYCHOTIC NOISE

Here's an interview with Oscar(Drums) of total grind/noise band, Psychotic noise..their grind/noise fuckin' rule! Totally recommendable!!!!!!

<1>When was the band formed??

-Please can you see our bio.thanx!

<2>Why did you start to make noise??

-We started to play noise back in July '89 coz we heard N.D."Scum" & others and we decided to do a band with this kind of music, but with our own style, of course!!!

<3>Noise seems to be very popular in Spain, right??

-Yeah!! When we started to play grind core/noise doesn't exist too much grindnoise bands but now Spain have got a lot of grindnoise bands like; Violent Headache, Germen, Necrotic, G.Masticator, Positi caustico, Seqzion Demenziados, Scraps of food, Ruido de rabia, Pestufactor, Caspa, A.T.S., Sparm ixdwf and tons more.

<4>What's your opinion on deathmetal Blackmetal, Hard core???

-I don't like to hear any black/death metal often but only a few of them I like. Hardcore rules, I like a lot of bands, too much mention now.

<5>Do you know Infeccion cronica from Spain? Are they still doing noise??

-Yes I know I.C. and their noise is very good+sick, they have some demos out and I think they should record a 7" but I don't know if they're active yet.

Cannibalistic dissection(Jap)/222sonx demo'93-94

From 1 until 209 sonx,were recorded in Nov'93 and from 210 until 222 sonx,were also recorded in Jan'94!!! When compared both sounds,these sounds different!!!!1-209 sonx sounds like they've been influenced by Anal cunt much!!!Vocal style was high-tone type but 210-222 sonx sounds like more towards to gore/death style!!!And vocal style was changing to rather good way..Yeah!They changed their high-tone vocals to more lower!!!! In my opinion,their latest stuff was better than old style..But I think this totally depends on people's music tastes!!!This demo costs US\$6(World)/\$500(Japan)!!!Support this band!!!

This is Jonte of U.N.D.'s another total grind/noise band!!!Sounds really decent & great!!!I thought he was totally into industrial noise coz of U.N.D.!!!But this band is usual grind/noise!!!The vocals are some kinds of mixtures of high screamings & growling s!!!Lyrix are dealing with politics etc.Well I don't know how much this tape costs coz Jonte didn't say..But maybe you could write to him...

Nocturnus/new 7"EP

This great EP has been released by Moribund records from US!!!The cover has multi-color,and nice green waxed vinyl!!!Looks really excellent quality!!!Nocturnus is one of death metal bands who I can deal/like!!!So I've bought their new EP from curiously!! And this EP totally beyonds their old LP"The key"!!!Much more technical than ever!!!Just Great!!!!Also I used to think their vocals are similar to Dr.shrinker.But I noticed their voices are not so higher like Dr.shrinker!!! But anyway their technical music can cover their middle-high tone voices!! Rather their voices fit their music!! I've heard this EP is sold out now unfortunately but I can understand coz everybody want to get this famous techno death with high music sense!!!

RETALIATION

Here is ultra sick fast geind/noise band from Sweden,RETALIATION!!!!!!! Their noise really rules!!!Fuckin'brutal/heavy/grinding!!!And deeper growlings!!!All grind/noise maniax would love them!!!!!! They've ever released 2 killer demos,although both demos are sicker as hell,in my opinion,their demo#2 is the best!!! Well here's an interview with Henke(Bass)!!!He's very nice so!!I've sent an interview for his former band,NEFARIOUS.But that band was already gone!!!So,with RETALIATION!!!!!!!

<1>When was the band formed??

-I formed Nefarious in december'92(in my head),and in January I asked Lasse if he wanted to do this thing with me, and he did!We recorded the"Necrorgasmic Convulsions"tape in Feb'93.It was 9sonx (approx.3.3 minutes) of intense chaos noise grind crust!We also recorded a 2nd demo"Corporal sexplotation"in April '93,but that tape was never released.. we split up after that tape though,and I formed Retaliation with a guy called Andreas.We recorded the"Acrid genital spew"demo with 13 sonx of total chaos. We also took in 2 more members,Jonas on guitar and Jocke on drums(I hope you understood that I play the bass?!).Our 2nd demo"Devastating doctrine dismemberment" was recorded in Jan'94.It was 19 sonx of the most brutal music ever!(Err rr..).And right now we're rehearsing sonx for gigs and a new demo!My other band Clinic is about to record a split tape with Latus,which should be most noisy!Watch out for it!!!

I only know how Henke looks like.
The right guy is Henke!

57

<2>What's your fave bands&influences??
-Oh,a tough one...Let's see..Arsestroyer,Dropdead,MOB 47,Assuck,Tumor,ENT, Patareni,Gut,Regurgitate/Brain damage, Amen,Disfear,G.B.N.,Nefarious etc etc.. Also stuff like Cypress hill,NWA,Lynch mob,Eazy E,Ice cube etc etc...

<3>Is death metal still the most popular in Sweden??

-Yes and no,y'see,death metal is still popular,but black metal is growing more popular each day.It's a pity to see 15-16 year old KIDS(Fuckin'young!!!-ED) trying to be "real" and "true"..What the fuck do they know about those 2 words?? On the other hand,cool black metal bands are;Mayhem(rules),Emperor,Burzum,Absu,Darkthrone,Ulver etc etc...

<4>Are there any new grind/noise bands in Sweden??

-I've only heard about us and Regurgitate/B.D., Arsedestroyer (raw as a motherfucker) and Clinic. Oh yeah, and Nasum of course.. I think Monkey mush broke up!

<5>What's the best zine from Sweden?

-That must be Hymen, Septic expository, Senil nekrofil (rip), Filth noise, and the rawest zine ever Sika apara! Total crust!

<6>What's your future plans??

-to record some new stuff, a couple of demos y'know!

<7>Anything to add??

-Yes! Thanx a lot Rumi, I hear you are ----- (Rikard of Regurgitate told me), so send me -----! All though you never heard of us, I think it was cool of you to send the mag and some questions! Your zine rule by the way! All noise-grind-crust bands can send their demo as a trade for ours! Hello to Rikard and Ubbe of Regurgitate, Anders and Rikard and Miezska of Nasum and all the other insane people around! See ya'll!!

Thanx a lot Henke for your answers!!!
Keep in being brutal & grinding!!!

Again right guy is Henke!!

•GM001-LP: AGATHOCLES: 'CLICHÉ?'

First live-LP for this worldknown grindband. It has 15 tracks with a real good sound, recorded in May '92. Also included is a booklet with socially engaged and sarcastic lyrics, funny photographs and a large writer intro. It's surely the most important live document for one of the oldest, yet still active, grindbands. Need to know some more? Get it at your own risk!!!

•GM002-EP: SYSTEM SHIT / RISING NATION.

Both bands come from Belgium, and have been active for quite a long time. But they aren't so well known in the hardcore 'scene', maybe cause their music is a strange mix of metal/grind/HC. Not the usual stuff. Lyrics deal with religion and fascism. Wanna hear it?

First LP for these Belgian and Italian grindbands. And already a true grindcore classic. Both go back in the grindroots added with a personal touch. This EP comes with a few pages about animals, multinational and social education. More punk than noise!!!

•GM003-EP: INTESTINAL DISEASE / BRUTAL MUTILATION.

Turbo Reanimacija come from Lithuania and play quite unusual hardcore. Lyrics are translated and look real nice, poetical and political as well. They're surely worth checking out. Massagraf plays in the more classical aggressive brutal hardcore vein. Take care for your ears. Against racism, using and abusing!

Children of the corn/issue#2(Bel)

This death metal main featured mag. is really professionally well done!!! Cover with beautiful art, all photos are dot-matrixed, even vinyl covers. Also this zine has CD review corner!! And each reviewed CD have point numbers like 6,7,8,9,10..that was really funny and easy to judge how this CD is good!!! Also very interesting interviews with; Catacomb, Divine eve, Morbid rec., Defleshed, Soulgrind, Dying fetus, Dead infection, Rot, Mortician mag..& more!!! Written in English. I liked this zine a lot. Order this professional zine for US\$5!!!!!!

Necromance/Enslaved/split(EP)

This split is limited edition of 500 copies and right now it's sold out, unfortunately... Anyway this split was 1st release from Morbid rec.!!!! As for Necromance, they're playing some good death metal sonx which everybody would love!! Vocals are in the middle growl tone, but this actually didn't bother my ears!!! I liked their sound more than Enslaved side!!! Also Enslaved is playing sometimes typical death metal which is more heavier, brutal, lower 59 than Necromance. Not boring as well!!!

Mindfart also takes out with some brutal grindcore with a few metal influences. What are you waiting for? Keep the grind alive!!!

* GRINDING MADNESS - RECORDS * 03.94

For those of you who don't know us, GRINDING MADNESS is a small D.I.Y.-recordlabel. We are mainly releasing grindcore stuff (as we feel grindcore is a bit rejected in today's 'scene'). But surely punk, hardcore or whatever you label it, gets it's chance too. To date, we've had five releases and there are a lot more to come! All benefits made are being repumped into the label or used for helping setting up gigs here around. We also carry a large distribution, so write us for a list. Of course we are prepared to swap our releases with yours. But please no CD's, need to ask why?!

FIGHT RACISM!

But GRINDING MADNESS is more than that. Like all D.I.Y.-stuff it's an attack on the values of mainstream society. We try to offer an honest alternative to the musicbusiness, with bands who have something to say. Profits means nothing here. Ideas, actions and change are what counts! THE FUTURE MUST BE OURS!!!

INTESTINAL DISEASE

<1>What's your fave bands??

-I will just name a few which are surely worth checking out if you have not already done; Active minds, Corpus christ, Cripple bastards, Rot, System phobia, Unhinged...they're currently my favorite ones.

<2>Have you been influenced by old Agathocles? Hows about Agathocles??

-Yes We've been influenced by old Agathocles sonx. As they're still the best grind around, I think. Steve of Agathocles also played with us in the beginning and he wrote our 1st song.. Right now Agathocles are still good friends. We play a lot together and meet very often. The only thing that bothers me is that they want to release so much records (and stupid CDs) (Why? You don't like CDs??-ED) But that's just my opinion about it. Anyway they're still very active nowadays and that's fuckin great!!!

<3>Are you guys all vegetalians? Do you against peoples eating even eggs, milk from cow, cheese etc??

-Yes we're all vegetalians, except peels, which means that we don't eat meat but we do eat milk/eggs. I don't think this harms the animals so.. they need to get rid of it so why don't use it? But the big problem are those eggs coming from those industrial chicken farms. Where the chickens are put their whole life in very small cages where they're mistreated. This is wrong. Boycott it and use eggs from the farmer.

<4>Don't you sell your demo anymore??

-We've already some vinyl out now so I don't think we'll be selling our demo anymore. But maybe, who knows??

<5>Your EPs, split EP are still available??

-All our vinyl releases are still available, here a list and prices;
LP V/A "A scream II" (with 9ID trax) surf: 8US\$-air: 10US\$
EP "Propaganda.." (split with Brutal mutilation) surf: 4US\$-air: 5US\$
EP "Raped inside your fault" (full EP) surf: 4US\$-air: 5US\$

<6>Your another releases from your label are not available anymore??

-All releases on my label are still available. For more details; look up at the flyer. (Please print it Rumi) (Sure!! Find Grinding madness rec.'s flyer on this issue!!!-ED)

<7>How many copies of limited editions are your records from your label??

-The releases on my label are not limited. They stay available and are being released whenever people ask.

<8>What's your opinions on; Blackmetal, Deathmetal, Punk HC??

-I don't listen to Black/Death metal. And I think it's a stupid senseless scene. Try to get so evil possible. Fuck off. I won't take your lies. About Punk/HC; I think it's great to have some caring people around, striving for a better world. Although the scene is a bit fucked up...work for it, the future must be ours!!!!

<9>What's I.D.'s future plans??

-Our plans are to continue what we're doing right now. (Changing the world, hahaha). Also we're going to tour Belgium/Spain/France in July/August together with our big friends The Muggles. (Hey Bruno, Geert, Manuella en Fredgie). Also we'll release 3 more split EPs and a few comp 's, later on. So we got to rehearse a lot I think.

<10>Anything to add??

-Yes thanx for your support Rumi. Keep up your good work with your zine.

Here's an interview with my friend, Abo of Cadaver corpse & Cadaver, corpse & bowels zine!!! But First off, I'm sorry, this interview is quite old coz this interview has been taken in '92. Uhh... I've just gotten his interview answers after a few days I've out my 3rd issue... So maybe..... things have changed after that... Sorry Abo!!!

<1>Wht did you start your noise project "Classic in pain"?

-Well sometime I felt bored about all the publications in metal/grind/and noisecore. There was nothing which showed a new idea. All bands copied each other and so I felt that this kind of music turned into a dead end. So I decided on starting this project "C.I.P.". I decided to make /use of Claude Debussy in a sense of a platform for my noise. I did it coz Debussy in his time was unrecognized genius who went new ways, which were not accepted.

<2>Is your EP still available??

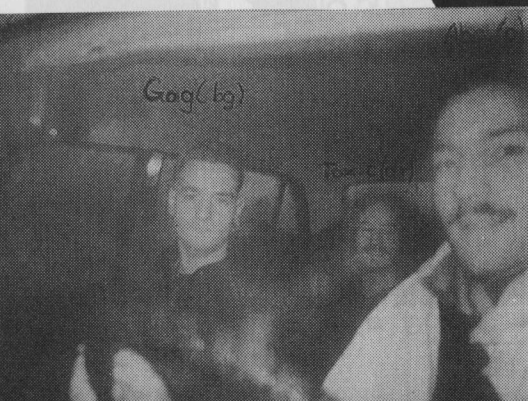

-Yeah, if you soon got a move on, you could get a 7" for 8US Dollars.

<3>Let me hear about latest news on your zine "Cadaver, corpse & bowels"!!

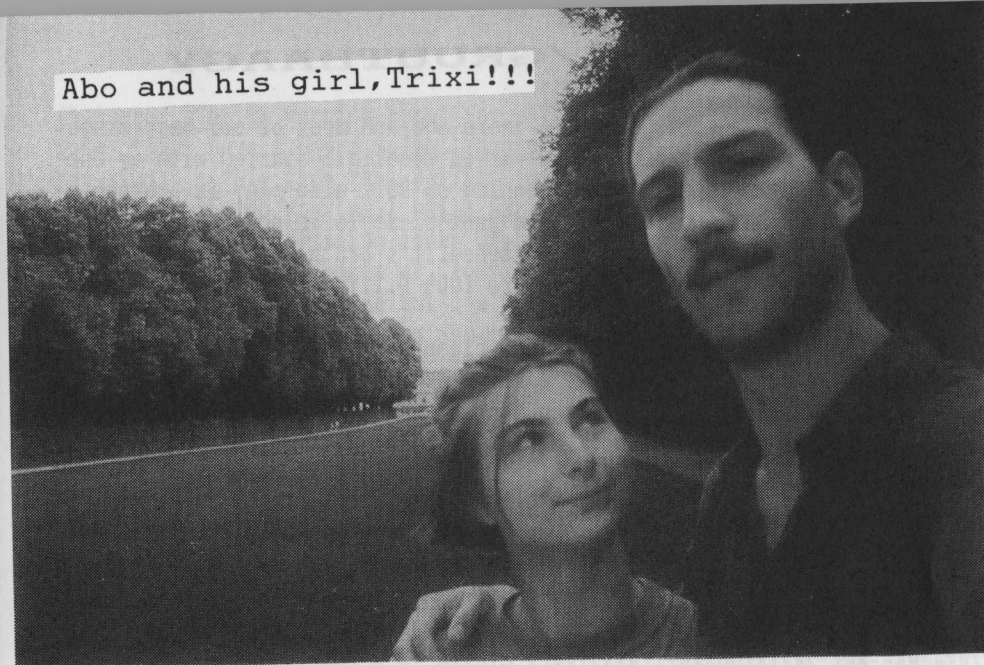

-Okay, I have to say that this zine doesn't exist anymore. As these gore stories went into a trendy direction, I had no fun any longer. At the last number I've sold 500 copies and now it's sold out.

<4>What's your favorite bands/zines???

-A very difficult question. I like Fear of god, Terrorizer, Pitch shifter, Manos. But there're many others so I could write down from paper to paper and no end. My favorite zines; at first your Gore lunatic, Karjalsu, Twilight zone, Limbus and Breakdown. I like all which's not trendy.

Abo and his girl, Trixi!!!

<5>Do you have other projects??

-Yeah, I played in the projects such as Pockebrood, Prugeltod, Mist shifts, Chaos core, B.B.C.. Besides this I play in a grind/noise band named "Cadaver corpse" in Leipzig. Even we've made an EP. We fight against the Nazi-bastards in Germany. It sux! I'm sure you've heard from this fascism-shit here. (I think it's known in the world wide. -ED) I say, in this time you can't make only music without telling something about this shit. We have to fight now. The EP costs also 8US Dollar.

<6>What's your future plans??

-In March, there would have the grind/noise festival here in Leipzig. With Patareni and 7 minutes of nausea, also C.I.P. too. It will be very strange and kill.

<7>Anything to add??

-Well all the best for your Gore lunatic zine, Rumi! Greetings to all ANTI-FASCISTS!!! Bye, Your Abo!!!

Thanx a lot Abo for all. I always feel bad for especially you coz.... you know, I'm slow... But anyway Abo thanx for all ever friendship, tape trading, zine trading etc.. You always rule!!! Good luck with you, Bye-bye!!!

T.R.B.U.H./GRUUTHAAGY

<1>When was the both bands formed??

-Well T.R.B.U.H. was formed about 4 years ago and most of our recordings was done short before or during the war in Croatia. I started with my one-man-band/project Gruuthaagy in beginning of '93. I also play in anarcho punk band called Antitude, and our old punk '82 style is now changing to more crusty sound..my new band is Nonsense. It's brutal grind/HC band with engaged lyrics..all those bands are 100% D.I.Y. and non-profit!!

<2>What's your fave bands & the main influences??

-My 1st influences was bands like early D.R.I., U.B.R., Negative FX, Larm, Disorder, etc..at last time I listen many different bands, and some of them are; Protest, S.O. war, Turmoil, Resist, Cripple bastards, early Discharge, etc., etc..It will be an endless list if I try to name them all!!

<3>Do you still sell your demos??

-Yes, everything is still available from me, but E.U. '91 production just released split tape with old T.R.B.U.H. recordings and Gruuthaagy demos #2 & 3. You can contact E.U. '91/Glued stamps records at; Giulio Baldizzone /Via Manzoni 24/14100-ASTI(AT)/ITALY. Giulio is a really friendly and supporting person and he has lots of other grind/noise/industrial/HC stuff on his label, too. Also check out his great band, C.bastards..now I'm looking for some cool labels to release T.R.B.U.H. live recordings (from our one and only live show, recorded last year here in Pozega), other Gruuthaagy demos and stuff from Nonsense and Antitude. Anyone interested?

<4>Have you released any new materials since demo#6??

-Yes!! I recorded Gruuthaagy demos #7 & 8!! #7 is more experimental and not so noisy as other Gruuthaagy demos, but #8 is extreme, noisy and intense as real fuck! Just an total industrial noise pollution and it's called "Kaos kultura". Demo #7 is called "Social anti-climax"..I also recorded some special trax for different comp. Most of them will be released here in Croatia, but one conceptual song will be out on double comp. LP "Bullshit detector" (For "Resistance prod" in Switzerland). If there is anyone who is interested for Gruuthaagy, feel free to contact me coz I still have lots of unreleased stuff..same goes for my other bands!!

Here's Kukatz at the gig!!!

66
T.R.B.U.H.
"Recordings"
Weird insane noise attack! Really original piece of shit!!
GRUUTHAAGY "walk against fear"
An ultimate industrial attack! 493 trax of chaotic trashy noise! TOTAL WEIRDO!

<5>Anyway I quite worried about you while EX-Yugoslavian war coz once here post office have stopped to mail/accept packages to Croatia&around. Were you always safety from that war? Did you get any bad influences from this war?? Could you do your mail while war???

-About mail, now everything looks OK, but there was lots of problems during the war (But for some parts of Croatia it still isn't over!). Also situation today is quite safe for me but I'm not sure for the future coz I don't believe to fuckin' politicians and nationalists from all sides! I don't believe to U.N. and Nato troops, too. They are all working for their own interests! Becoz of that I'm working on an united anarchist peace front against the war on Balkan. We want real peace without any kind of authority coz authority always only kills!! But we're very small in numbers and do not have any real influence on situation, coz most people are still too blind to see a real reason for this-fighting for power! Back to the mail. I have a lots of problems coz it's very expensive for me, so if anyone who will write to me, send some money for return postage I will be able to send it much faster..please don't forget that I live in country with very bad economical situation, post-war cries and that I'm unemployed! It's very hard to stay active in those conditions! Any help is more than welcome!!!

<6>Are there any new grind/noise bands in Croatia??

-Hmm...There's no grind/noise trend in Croatia! Patareni is still active, but I don't consider them as a real underground band anymore. There're some metal grind/death core bands like; Natural disaster, Dissection, Amen, Sproved, NKV, etc..and death/thrash metal is some kind of trend but not real grind/noise!! There was an grind/noise band called G.O.O. but after few rehearsals recordings they split up...Also there's one real grindcore band in Dula called "Desinence mortification". They have 1 demo out and it's good!! The best band I heard in last time is ex-Abzz normalan. They're now plactising in new line up and they will have some other name, not Abzz normalan anymore. Their music is very crusty core with brutal vocals, also some grind influences, cool engaged lyrics and total D.I.Y. attitude.

<7>Can you change US\$ easily at the bank etc.???

-Yes, I can. There's no problem with that...

<8>How's like Croatian life?? Are there lots of gigs??

-There's lots of apathy and depression in our daily life coz war is still not forgotten and still is close to us. But situation is getting better, for now. There're lots of small gigs in different parts of Croatia, and next month there will be 1st gig concert with Napalm death and Entombed in Zagreb. You can have lots of fun if you have money, but if you don't-Hmmm... There's still cheap wine, Hah ha!!...And some good friends, of course!

<9>I've gotten your T.R.B.U.H. demo by tape trading with Edi of Extreme smoke quite before..Do you know him personally??

-No,I don't know Edi personally..but he helped T.R.B.U.H. a lot!(Hi old mate,if you're reading this!)

<10>Please tell me about your zine!!

-It's anarcho punk/HC/grind oriented zine, written in mostly English and partly in Croatian. You can still have issue#2 with; Anarcrust, Flagrants d eli, C.bastards, B.justice, Punishment park, Disused records, Mayday skins, Anti war action, Zagreb anarcho pacifist organization, reviews, art and pacifist poster for 2US\$(Europe), 3US\$(Else)! Issue#3 will be out like a split zine with Warhead#12. I also released an anti-war comp. tape+booklet, and soon will be out another one! Distributors are welcome...

<11>What do you do in Croatia everyday??

-I sleep a lot. Music(or should I say-Noise!), mailing, anarchism, friends and booze-That's what keep me alive...

<12>What's your future plans??

-Whoow!! I have a really lots of plans...all depends of my financial but I will continue to be active in many different ways. Maybe most interesting are my plans for Gruuthaagy-It won't be one man band anymore and style will be changed a lot! New sound will be much more depressive, slow, dark noise, but still very revolutionary...we will see!!!

<13>Any last words???

-At the 1st, mega thanx to you Rumi for cool questions, you rule! Fuck authority-Never do what they told you!!! Stay noisy.
